Building Failures W.H. Ransom, 2002-11-01 In recent years building failures and the resulting lawsuits and awards for damages have frequently been in the news The biggest headlines may have been reserved for structural failures and complete collapses but we should not forget the less newsworthy failures such as leaky roofs damp walls dropped foundations and rotted timber This book gives practical guidance on the prevention of failure by describing the nature and

Failures in Concrete Structures Robin Whittle, 2012-11-01 Some lessons are only learned from mistakes but it s much cheaper to learn from someone else s mistakes than to have to do so from your own Drawing on over fifty years of working with concrete structures Robin Whittle examines the problems which he has seen occur and shows how they could have been avoided The first and largest part of the book tells the stories of a number of cases where things have gone wrong with concrete structures Each case is analyzed to identify its cause and how it might have been prevented It then looks at how failures in structural modelling can lead to big problems if they are not identified before construction is undertaken Beyond this it examines how contract arrangements can encourage or prevent problems in the designing and building processes It concludes with an examination of the role

research and development in preventing failures By identifying the differences between shoddy economizations and genuine efficiency savings this book offers savings in the short term which won't be at the expense of a structure's long term performance Invaluable reading if you're designing or building concrete structures and want to avoid problems which could be expensive or embarrassing further down the line *Failure Mechanisms in Building Construction* David Harlan Nicastro, 1997 David Nicastro examines various types of failure mechanisms including their causes and identifying characteristics and provides a comprehensive collection of case histories Perspectives in Civil Engineering Jeffrey S.
