Constructions Of Race Place And Nation:

Constructions of Race, Place, and Nation Peter Jackson, Jan Penrose, 1994 **Environment and Planning**, 2005

Constructing a Sense of Place Haim Yacobi, 2004 While it is widely recognized that architects and their architecture play a key role in constructing a sense of place the inherent nexus between an architectural ideology and the production of national space and place has so far been neglected Focusing on the Zionist ideology this book brings together practising architects and academics to critically examine the role of architects architecture and spatial practices as mediators between national ideology and the politicization of space The book first of all sets out the wider context of theoretical debates concerning the role of architecture in the process of constructing a sense of place then divides into six main sections The book not only provides an innovative new perspective on how the Israeli state had developed but also sheds light on how architecture shapes national identity in any post colonial and settler state **Just Doing it** Deborah Barndt, Gene

Desfor, Barbara Rahder, Institute of Policy Alternatives (Montréal, Québec), 2002 Stories of how marginalized groups and individuals battle to gain some measure of control of their lives Hip-hop Revolution Jeffrey Ogbonna Green Ogbar, 2007 As hip hop artists constantly struggle to keep it real this fascinating study examines the debates over the core codes of hip hop authenticity as it reflects and reacts to problematic black images in popular culture placing hip hop in its proper cultural political and social contexts Nested Identities Guntram H. Herb, David H. Kaplan, 1999-01-28 This text explores the importance of territory and space to a genuine understanding of nationalism and identity It combines theoretical insights with structured case studies on how national identity manifests itself in space and at different geographical stages

Griffin, 1999 The chapters in this volume focus on the international system of monitoring media coverage of global problems such as peace and war human rights and the environment The kind of media criticism advocated by the media monitoring idea is motivated by scientifically based description and assessment of media performance carried out by methods of content analysis **Islam in the European**

Union Yunas Samad, Kasturi Sen, 2007 Papers presented at a conference held in 2003 **Kunapipi** ,1996 *Nationalism and Territory* George W. White, 2000-03-22 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation's identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war *Asian and Pacific Migration Journal* ,2005 The British National Bibliography Arthur James Wells, 1998 **Making Place, Making Self** Inger J. Birkeland, 2005 Making Place Making Self explores new understandings of place and place making in late modernity covering key themes of place and space tourism and mobility sexual difference and subjectivity By combining ground breaking theory with her innovative use of case studies Inger Birkeland here provides a major contribution to the fields of cultural geography tourism and feminist studies Social Justice ,2005 Nga Patai Paul Spoonley, David G.
