from Consumers Co Operative Societies The excellent translation of Professor Gide s *Les Societes Cooperatives de*
consommation which follows is the result of the labors of the staff of the Co operative Reference Library Dublin Ireland The
present editor in preparing the book for an American public has by permission of the fellow co operators in Dublin eliminated
such of the English footnotes as were of interest principally to British readers or has incorporated them in his own He has
also moved up into the text many of Professor Gide s notes added by him at the time of the translation into English Therefore
at present there are only the two kinds of footnotes those of the original author and those of the American editor Without the
painstaking work of the translators and those who assisted them this American edition would probably not have been
undertaken at this time Without Professor Gide s help in reading through the proofs and making several valuable suggestions
the book would not have the contemporary value it now possesses Finally Dr Warbasse in contributing a preface and a
chapter on Co operation in the United States has made this book always indispensable to the student of European Co
operation an essential to those who are studying the Co operative Movement in the United States The present editor is
honoured in being able to append a few additional American notes and to prepare this edition for the publisher About the
