Containing Missile Proliferation Strategic Technology Security:

Containing Missile Proliferation Dinshaw Mistry, 2003 Mistry critically examines the successes and limitations of the Missile Technology Control Regime offering new and detailed insights on the technology and politics of missile programs in Iran Iraq North Korea Pakistan India Israel Egypt South Korea Taiwan and other countries He also shows how international cooperation security regimes and U S foreign policies of engagement and containment with these states can halt their missile programs New Global Dangers Michael Edward Brown, 2004 Command of the commons the military foundation of U S Hegemony Barry R Posen Why do states build nuclear weapons Three models in search of a bomb Scott D Sagan Never say never again nuclear reversal revisited Ariel E Levite Preventing nuclear entrepreneurship in Russia's nuclear cities Sharon K Weiner Pathogens as weapons the international security implications of biological warfare Gregory Koblentz Dreaded risks and the control of biological weapons Jessica Stern Beyond the MTCR building a comprehensive regime to contain ballistic missile proliferation Dinshaw Mistry Human security paradigm shift or hot air Roland Paris Security stability and international migration Myron Weiner HIV AIDS and the changing landscape of war in Africa Stefan Elbe Collateral damage humanitarian assistance as a cause of conflict Sarah Kenyon Lischer Market civilization and its clash with terror Michael Moussseau T Dictionary of International Security Paul Robinson, 2008 This dictionary provides readers with a handy reference guide to the field of international security by including over 200 articles on a wide range of concepts issues treaties and institutions from absolute war to weapons of mass destruction

Drones and Global Order Paul Lushenko, Srinjoy Bose, William Maley, 2021-12-28 This book explores the implications of drone warfare for the legitimacy of global order The literature on drone warfare has evolved from studying the proliferation of drones to measuring their effectiveness to exploring their legal moral and ethical impacts These three waves of scholarship do not however address the implications of drone warfare for global order This book fills the gap by contributing to a fourth wave of literature concerned with the trade offs imposed by drone warfare for global order The book draws on the English School of International Relations Theory which is premised on the existence of a society of states bounded by common norms values and institutions to argue that drone warfare imposes contradictions on the structural and normative pillars of global order These consist of the structure of international society and diffusion of military capabilities as well as the sovereign equality of states and laws of armed conflict The book presents a typology of contradictions imposed by drone warfare within and across these axes that threaten the legitimacy of global order This framework also suggests a confounding consequence of drone warfare that scholars have not hitherto explored rigorously drone warfare can sometimes strengthen global order The volume concludes by proposing a research agenda to reconcile the complex and often counter intuitive impacts of drone warfare for global order This book will be of considerable interest to students of security studies global governance and International Relations

Assessing the Threat of Weapons of Mass Destruction John L. Finney, Ivo Šlaus, 2010 This is a collection of papers delivered at the

NATO Advanced Research Workshop of the same name which examined the role of independent scientists in assessing WMD threat. Such threat assessment has a profound impact on the policies of governments and international organizations. With papers covering topics ranging from policy making to chemical and biological weapons, nuclear threats and breaking the threat or counter threat cycle, this book illuminates an area of vital importance to the security and stability of relations between states and the maintenance of internationally agreed norms.

International Cooperation on WMD

Nonproliferation Jeffrey W. Knopf, 2016-02-15. International efforts to prevent the spread of weapons of mass destruction (WMD) including nuclear, biological and chemical weapons rest upon foundations provided by global treaties such as the Nuclear Non-Proliferation Treaty (NPT) and the Chemical Weapons Convention (CWC). Over time, however, states have created a number of other mechanisms for organizing international cooperation to promote nonproliferation. Examples range from regional efforts to various worldwide export control regimes and nuclear security summit meetings initiated by U.S. president Barack Obama. Many of these additional nonproliferation arrangements are less formal and have fewer members than the global treaties. *International Cooperation on WMD* Nonproliferation calls attention to the emergence of international cooperation beyond the core global nonproliferation treaties. The contributors examine why these other cooperative nonproliferation mechanisms have emerged, assess their effectiveness and ask how well the different pieces of the global nonproliferation regime complex fit together. Collectively, the essayists show that states have added new forms of international cooperation to combat WMD proliferation for multiple reasons, including the need to address new problems and the entrepreneurial activities of key state leaders. Despite the complications created by the existence of so many different cooperative arrangements, this collection shows the world is witnessing a process of building cooperation that is leading to greater levels of activity in support of norms against WMD and terrorism.

Ballistic Missiles and South Asian Security

Contemporary Security and Strategy Craig A. Snyder, 2008. This rigorously edited text brings together a range of specially commissioned chapters to provide an accessible introduction to Security Studies in the 21st century. The second edition has been expanded to cover developments in global and regional security, nuclear proliferation, terrorism, intervention and peacekeeping and includes 8 entirely new chapters.

International Security in a Time of Change Adam Daniel Rotfeld, 2004. Over a short period of time, the area of security in its traditional sense has witnessed consecutive tides of threats and challenges which have caught the attention of researchers, politicians and the media. The interest and fascination of the security community has been stimulated by the successively long term and complicated consequences of the disintegration of the Soviet empire, post-communist nationalism, ethnic religious and other conflicts, humanitarian tragedies that called for international intervention, rogue nations and failing states and finally international terrorism. The unstable situation and its unpredictable development make it impossible to come up with a

new paradigm of security and build a solid institutional infrastructure of international security The Polish and German editors of this book have encouraged a group of renown international researchers to tackle this project The authors look from different thematic and national perspectives at current problems of international security grouped into four large baskets Threats and challenges new concepts problems of security in the Euro Atlantic zone and issues of arms control The book is dedicated to Professor Adam Daniel Rotfeld nowadays a State Secretary in the Ministry of Foreign Affairs of Poland and formerly the Director of the Stockholm based International Peace Research Institute SIPRI Problems of Post-communism ,2006 **Confrontation and Innovation on the Korean Peninsula** ,2003 *Parsiana* ,2003 **The Comprehensive Guide to International Law** Marc Cogen,2008 Cogen international law Ghent U Belgium presents an overview of the history and current status of international law Chapters discuss the sources of international law the history of international law states and territories the rights and responsibilities of states the global commons international organizations the individual diplomatic and consular law the law of treaties and the laws regarding armed activities The focus of the work is on the straightforward presentation of the principles and rules of international law in these key areas **Exodus from Empire** Terrence E.
