Contemporary Architecture ,1988 *Modern Architecture and the Critical Present* Kenneth Frampton,1982

Franklin D. Israel Todd Gannon,2025-01-14 This book examines the life and legacy of Franklin D Israel an influential member of the Los Angeles school of architects Acclaimed Los Angeles architect Franklin D Israel 1945 1996 created innovative residential projects and office interiors that made him one of the most talked about designers of his generation In this vivid account architectural historian Todd Gannon draws on archival resources analyses of Israel s buildings and recent interviews with the architect s colleagues clients and contemporaries including Frank Gehry Thom Mayne and Robert A M Stern Gannon traces Israel s development from his early years and career on the East Coast to his formative world travels and residence at the American Academy in Rome The author guides readers through the Los Angeles architectural context Israel s influential teaching at UCLA his dalliance with Hollywood and the personal motivations behind his architecture and design work all aspects of an influential career that was cut short by his death from AIDS related complications at the age of fifty Franklin D Israel is a compelling work of architectural history and biography chronicling one gay man s engagement with the largely heteronormative world of American architectural culture It explores the achievement of this central figure in the still largely unstudied history of late twentieth century avant garde Los Angeles architecture The Post-Modern and the Post-Industrial Margaret A. Rose,1991-06-28 The first book to provide a critical survey of the many different uses made of the term post modern across a number of different disciplines Contemporary Japanese Architecture, Its Development and Challenge Botond Bognár,1985 Mediated Messages Véronique Patteeuw,Léa-Catherine Szacka,2018-06-14 Mediated Messages presents a collection of original writing exploring the role played by the media in the development of postmodern architecture in the 1970s and 80s The book s twelve chapters and case studies examine a range of contemporary periodicals and exhibitions to explore their role in the postmodern This focus on mediation as a key feature of architectural post modernism and the recognition that post modernism grew out of developments in the media opens up the possibility of an important new account of post modernism distinct from existing narratives Accompanied by a contextualizing introduction the essays are arranged across four thematic sections covering images international postmodernisms high and low culture and postmodern architects as theorists and present a range of case studies with a genuinely international scope Altogether this work makes a substantial contribution to the historical account of architectural postmodernism and will be of great interest to researchers in postmodernism as well as those examining the role of the media in architectural history
