Contemporary Argentina:

Rethinking Race in Modern Argentina Paulina Alberto, Eduardo Elena, 2016-03-21 This book reconsiders the relationship between race and nation in Argentina during the twentieth and twenty first centuries and places Argentina firmly in dialog with the literature on race and nation in Latin America from where it has long been excluded or marginalized for being a white European exception in a mixed race region The contributors based both in North America and Argentina hail from the fields of history anthropology and literary and cultural studies Their essays collectively destabilize widespread certainties about Argentina showing that whiteness in that country has more in common with practices and ideologies of Mestizaje and racial democracy elsewhere in the region than has typically been acknowledged The essays also situate Argentina within the well established literature on race nation and whiteness in world regions beyond Latin America particularly other European settler societies The collection thus contributes to rethinking race for other global contexts as well

Contemporary Argentina David J Keeling, 2021-11-28 In this perceptive book David Keeling analyzes Argentinas changing position in the modern world economy against the backdrop of the countrys regional development processes Combining systematic and area based approaches he discusses international and national trends that have shaped the social and economic geography of Argentina in profound and fundamental ways Drawing on recent census data as well as on material from the Menem government Keeling also explores whether Argentinas participation in the new world government has adversely affected environmental labor and social conditions Since 1989 Argentina has experienced perhaps its most significant period of change since federation in 1880 Under the leadership of Carlos Menem and the Justicialista political party contemporary Argentina is emerging from the chaos of long term instability to reassert itself as a viable player in both regional and global systems

Identity and Nationalism in Modern Argentina Jeane DeLaney, 2020-07-25 Nationalism has played a uniquely powerful role in Argentine history in large part due to the rise and enduring strength of two variants of anti liberal nationalist thought one left wing and identifying with the people and the other right wing and identifying with Argentina s Catholic heritage Although embracing very different political programs the leaders of these two forms of nationalism shared the belief that the country s nineteenth century liberal elites had betrayed the country by seeking to impose an alien ideology at odds with the supposedly true nature of the Argentine people The result in their view was an ongoing conflict between the false Argentina of the liberals and the authentic nation of true Argentines Yet despite their commonalities scholarship has yet to pay significant attention to the interconnections between these two variants of Argentine nationalism Jeane DeLaney rectifies this oversight with *Identity and Nationalism in Modern Argentina* In this book DeLaney explores the origins and development of Argentina s two forms of nationalism by linking nationalist thought to ongoing debates over Argentine identity Part I considers the period before 1930 examining the emergence and spread of new essentialist ideas of national identity during the age of mass immigration Part II

analyzes the rise of nationalist movements after 1930 by focusing on individuals who self identified as nationalists DeLaney connects the rise of Argentina's anti liberal nationalist movements to the shock of early twentieth century immigration She examines how pressures posed by the newcomers led to the weakening of the traditional ideal of Argentina as a civic community and the rise of new ethno cultural understandings of national identity Identity and Nationalism in Modern Argentina demonstrates that national identities are neither unitary nor immutable and that the ways in which citizens imagine their nation have crucial implications for how they perceive immigrants and whether they believe domestic minorities to be full fledged members of the national community Given the recent surge of anti immigrant sentiment in Europe and the United States this study will be of interest to scholars of nationalism political science Latin American political thought and the contemporary history of Argentina Argentina Garibaldi G. Modern Argentina, the El Dorado of To-day William Henry Koebel, 1907 *Crisis and Capitalism in Contemporary Argentine Cinema* Joanna Page, 2009-05-22 This first in depth English language study of Argentine fiction films released since the mid 1990s explains how they have registered Argentina's recent experience of capitalism neoliberalism and economic crisis Contemporary Argentine Cinema David William Foster, 1992 Foster discusses ten Argentine films including Kiss of the Spider Woman The Official Story and Man Facing Southeast to examine the transformation of social topics into motion pictures and the relationship between commercial filmmaking strategies and Argentine redemocratization Publishers website

Argentina Kenneth T. Rivera, 2002 Even a casual observer can see that Argentina is in dire straits As interim president follows interim president in the wake of rioting the country cannot meet its foreign debt and has devalued its currency The economy is falling unemployment is high and social services are in trouble Because of large budgetary deficits international monetary organisations have withheld loans and the Argentine government imposed restrictions on bank withdrawals to prevent a catastrophic run on currency Argentina may yet pull itself from the abyss over which it teeters but the road back will be neither quick nor painless This book provides a comprehensive look at Argentina its growth as a nation and its current predicament **Contemporary Latin American Artists** Annick Sanjurjo, 1993 this book really shines though is in offering access to biographical information on artists generally unknown to North Americans an excellent reference book for research collections LIBRARY JOURNAL This monumental effort gives a good history of the development of modern Latin American art CHOICE Sanjurjo has gone a long way in redressing the neglect in the literature of a continent and a culture's artistic achievements ART DOCUMENTATION Making Immigrants in Modern Argentina Julia Albarracín, 2020-05-31 In *Making Immigrants in Modern Argentina* Julia Albarracín argues that modern Argentina's selection of immigrants lies at the intersection of state decision making processes and various economic cultural and international factors Immediately after independence Argentina designed a national project for the selection of Western European immigrants in order to build an economically viable society but also welcomed many local Latin Americans as well as Jewish and Middle Eastern immigrants

Today Argentines are quick to blame Latin American immigrants for crime drug violence and an increase in the number of people living in shantytowns Albarrac n discusses how the current Macri administration possibly emulating the Trump administration s immigration policies has rolled back some of the rights awarded to immigrants by law in 2003 through an executive order issued in 2017 Albarrac n explains the roles of the executive and legislative branches in enacting new policies and determines the weight of numerous factors throughout this process Additionally Albarrac n puts Argentine immigration policies into a comparative perspective and creates space for new ways to examine countries other than those typically discussed Incorporating a vast amount of research spanning 150 years of immigration policies five decades of media coverage of immigration surveys with congresspersons and interviews with key policy makers Albarrac n goes beyond the causes and consequences of immigration to assess the factors shaping policy decisions both in the past and in modern Argentina This book will appeal to scholars students and general readers with an interest in immigration democratization race history culture nationalism Latin American studies and representation of minorities in the media
