Contemporary Adolescence Hershel D. Thornburg, 1975

Contemporary Adolescence Patrick C. L.

Heaven, 1994-01-01 Contemporary Adolescence introduces and reviews major themes in adolescent development. The lively and topical chapters including such topics as the influence of family and friends, sexuality and AIDS, adolescents as parents, the world of work and money, delinquency and depression, and suicide will appeal to undergraduates and professionals alike. Each chapter provides an overview of important and recent research findings from leading international journals and evaluates their implications for the social and emotional development of adolescents. The text is written in a clear and concise style and cites findings from many different cultures. Many chapters feature a case study and the reader is able to follow through the cases a range of problems. Contemporary Adolescence will make an ideal introductory text for courses in psychology, education, social work, and welfare.

Young People and Social Media: Contemporary Children's Digital Culture Steve Gennaro, Blair Miller, 2021-10-05

Young People and Social Media Contemporary Children's Digital Culture explores the practices, relationships, consequences, benefits, and outcomes of children's experiences with on and through social media by bringing together a vast array of different ideas about childhood, youth, and young people's lives. These ideas are drawn from scholars working in a variety of disciplines and rather than just describing the social construction of childhood or an understanding of children's lives, this collection seeks to encapsulate not only how young people exist on social media but also how their physical lives are impacted by their presence on social media. One of the aims of this volume in exploring youth interaction with social media is to unpack the structuring of digital technologies in terms of how young people access the technology to use it as a means of communication, a platform for identification, and a tool for participation in their larger social world. During longstanding and continued experience in the broad field of youth and digital culture, we have come to realize that not only is the subject matter increasing in importance at an immeasurable rate but the amount of textbooks and/or edited collections has lagged behind considerably. There is a lack of sources that fully encapsulate the canon of texts for the discipline or the rich diversity and complexity of overlapping subject areas that create the fertile ground for studying young people's lives and culture. The editors hope that this text will occupy some of that void and act as a catalyst for future interdisciplinary collections.

Young People and Social Media Contemporary Children's Digital Culture will appeal to undergraduate students studying Child and Youth Studies and, given the interdisciplinary nature of the collection, scholars, researchers, and students at all levels working in anthropology, psychology, sociology, communication studies, cultural studies, media studies, education, and human rights, among others. Practitioners in these fields will also find this collection of particular interest.

Vampire Legends in Contemporary American Culture William Patrick Day, 2021-02-15

While vampire stories have been part of popular culture since the beginning of the nineteenth century, it has been in recent decades that they have become a central part of American culture.

Vampire Legends in Contemporary American Culture looks at how vampire stories from Bram Stoker's Dracula to Blacula from Bela Lugosi's films to Love at First Bite have become part of our ongoing debate about what it means to be human William Patrick Day looks at how writers and filmmakers as diverse as Anne Rice and Andy Warhol present the vampire as an archetype of human identity as well as how many post modern vampire stories reflect our fear and attraction to stories of addiction and violence He argues that contemporary stories use the character of Dracula to explore modern values and that stories of vampire slayers such as the popular television series Buffy the Vampire Slayer integrate current feminist ideas and the image of the Vietnam veteran into a new heroic version of the vampire story **Postfeminism and Contemporary**

Vampire Romance Lea Gerhards, 2022-05-19 In this book Lea Gerhards traces connections between three recent vampire romance series the Twilight film series 2008 2012 The Vampire Diaries 2009 2017 and True Blood 2008 2014 exploring their tremendous discursive and ideological power in order to understand the cultural politics of these extremely popular texts She uses contemporary vampire romance to examine postfeminist ideologies and discuss gender sexuality subjectivity agency and the body Discussing a range of conflicting meanings contained in the narratives Gerhards critically looks genre's engagement with everyday sexism and violence against women power relations in heterosexual relationships sexual autonomy and pleasure self empowerment and self surveillance She asks Why are these genre texts so popular right now what specific desires issues and fears are addressed and negotiated by them and what kinds of pleasures do they offer Working With

Contemporary English W. E. Collinson, 1927 This book is written primarily for foreign students and teachers of English That purpose governs the whole presentment and organization of the material and the type of explanation offered To my own fellow countrymen it may at the highest reckoning offer a means of bringing to the surface hidden memories of curious and amusing words Probably it brings them little that is new but it may stimulate them to seek out and regroup their own linguistic experiences In fifty years time the work might even claim the attention of the English philologist whom it will provide with a certain amount of dated material for his historical inductions For the present its mission is more humble and more practical The first idea that such a collection as the present might not be unwelcome to Professor Jespersen whose kindness in looking through the first draft and suggesting improvements I acknowledge with deep gratitude Mr Bradley and Mr Hutton both of the Liverpool University Library have unselfishly given me the benefit of their sharp eyes and wide reading a number of their proposed emendations and additions have been gratefully embodied My special thanks are due to Dr Hittmair of the University of Innsbruck whose encouragement and ungrudging help have throughout been of the greatest value to me Finally I feel I must express my gratitude to the firm of Teubner for its care in preparing my MS
