Contemporary Cases In Womens Rights:

Contemporary Cases in Women's Rights Leslie Friedman Goldstein, 1994 Women on the Defensive Sylvia B. Bashevkin, 1998-06-08 Bashevkin combines individual voices with policy initiatives to provide the first complete picture of the recent past and uncertain future of contemporary feminism **BOOK JACKET** **Sexual Harassment** V. P. Argos, 1999 The topic of sexual harassment is a real threat to society in spite of its downplaying by a large segment of society including the 42nd President of the United States This book presents analyses designed to help shed light on it and a bibliography sorted for ease of use Women Through Time: Re-evaluating Ancient, Traditional, Modern, and Contemporary Feminine Ideals KHRITISH SWARGIARY, 2024-10-01 The subject of women's roles throughout history has been extensively debated with each era bringing forth its own interpretation of what it means to be a woman This book Women Through Time Re-evaluating Ancient Traditional Modern and Contemporary Feminine Ideals dares to question the prevailing assumption that the most recent forms of womanhood are necessarily the most liberating or empowered Instead this work examines the evolution of women's roles across four major historical periods ancient traditional modern and contemporary and challenges the reader to consider which era truly offered women the greatest sense of fulfillment purpose and societal value The inspiration for this book arose from a growing dissatisfaction with mainstream narratives that often dismiss traditional and ancient forms of womanhood as merely repressive or regressive Modern discussions of gender equality and empowerment tend to overlook the nuanced ways women have historically wielded power influenced culture and shaped their communities My goal with this book is not to diminish the achievements of modern women's rights movements but to reframe the conversation around what it means to live as a successful woman in society Through detailed analysis this work aims to give fair consideration to each form of womanhood be it as an ancient priestess a traditional homemaker a modern feminist or a contemporary activist

Transnational Actors in War and Peace David Malet, Miriam J. Anderson, 2017-06-01 Transnational Actors in War and Peace explores the identities organization strategies and influence of transnational actors involved in contentious politics armed conflict and peacemaking over the last one hundred years While the study of transnational politics has been a rapidly growing field to date the disparate array of actors have not been analyzed alongside each other making it difficult to develop a common theoretical framework or determine their relative influence on international stability war and peace This work seeks to fill this gap by bringing together a diverse set of scholars focused on a range of transnational actors such as pirates foreign fighters terrorists private military security companies criminal networks religious groups diasporas political exiles NGOs environmental activists global news agencies and feminist advocacy networks Each chapter examines a different transnational actor and is structured around five components how the actor is organized how it interacts with other actors how it communicates both internally and externally how it influences conflict peace and how it reflects developments in

 ,1999 Communism and Reform in East Asia (RLE Modern East and South East Asia) David S. G. Goodman, 2015-04-10 The
 West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia
 appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential
 market The West's attitude is reinforced by the recognition of East Asia's economic importance more generally a perception
 which in itself undoubtedly stimulated reform in the region's communist party states The causes extent and consequences of
 reform in the East Asian communist party states are the concerns of the contributions to this volume first published in 1988
 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles
 played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process
 of economic and political liberalization brought about by the drive for economic modernization the production imperative is a
 misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even
 a necessary condition In individual countries the communist party's search for legitimacy a change of leadership or the
 relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a
 consequence of the communist party's desire to reform rather than a cause The absence of a uniform pattern does not
 detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of
