## **Conservative Thinkers From John Adams To Winston Churchill:**

Conservative Thinkers Peter Viereck, 2017-07-05 Across America today conservatism is being hotly debated both across the political spectrum and within the conservative movement itself Much of the public debate is without definition or historical context This history of conservatism by renowned historian social critic and poet Peter Viereck aims to meet the need for a concise balanced picture of conservative thought in all its different shadings and cultural contexts The analytical portion of the book provides a succinct but thorough critical overview of conservatism s most representative figures Viereck begins with chapters defining conservatism itself its special technical terms and its changing historical circumstances The rest deals with its actual thinkers and statesmen After each main conservative thesis the anti conservative rebuttal is summarized and the reader is allowed to reach his own conclusions Though the first stress is on conservative political philosophy from John Adams to Churchill key sections also stress non political conservatism in religion Cardinal Newman and in the primarily cultural protest against material progress Coleridge Dostoyevsky Melville Henry Adams Every major point is concretely illustrated by an appended cross reference to a primary source in the second half a well chosen anthology of key conservative documents Criteria for inclusion are three representativeness depth of perception importance of influence The result is not uniformity but a gamut from extreme intolerant reaction to an evolutionary moderate spirit The former passes imperceptibly into authoritarianism the latter into liberalism The Words of Winston Churchill Jonathan Locke

Hart, 2022-09-30 The Words of Winston Churchill a study that ranges over the course of a rich controversial and remarkable career is about the power and art of his language as a writer and speaker Churchill used words as the greatest of poets and orators do and did so in Parliament and for the people Britain and the empire in war and peace facing the changes in the world and resisting Hitler and the Nazis Drawing on the traditions of poetics rhetoric and textual commentary the study concentrates on Churchill s writing and is sensitive to texts and contexts and to the archive A central matter is Churchill speaking in Parliament and the reception of his speeches there for over six decades although his work as a writer and a speaker outside the House of Commons is also important Churchill speaks to the House the people Britain the Empire the Commonwealth and the world and in crisis defends freedom and democracy **Contemporary Russian Conservatism**

Mikhail Suslov, Dmitry Uzlaner, 2019-10-14 This volume is the first comprehensive study of the conservative turn in Russia under Putin Its fifteen chapters written by renowned specialists in the field provide a focused examination of what Russian conservatism is and how it works The book features in depth discussions of the historical dimensions of conservatism the contemporary international context the theoretical conceptualization of conservatism and empirical case studies Among various issues covered by the volume are the geopolitical and religious dimensions of conservatism and the conservative perspective on Russian history and the politics of memory The authors show that conservative ideology condenses and reworks a number of discussions about Russia s identity and its place in the world Contributors include Katharina Bluhm Per

Three Frames of Modern Politics Daniel J. McCool, 2018-09-08 This book examines the centrality of personality in political discourse since the Enlightenment It considers the theory known as the politics of authenticity its counter discourses and the ways in which it has degraded or enriched our collective political life Using three models of politics to understand our current political predicaments the politics of authenticity politics of theatricality and institutional politics this volume argues that we need to envision a politics based on the best parts of each model one that incorporates the ability for the oppressed to speak outside the institutional mechanisms of government With the continuing erosion of public faith in political institutions we have instead been left with the most troubling aspects of both authentic and theatrical politics By exploring recent events and trends in American politics this book ultimately makes a normative case that we need to balance demands for authenticity in our political actors with the equally necessary political values of deliberative institutions processes and decorum

**American Labyrinth** Raymond Haberski, Jr., Andrew Hartman, 2018-12-15 American Labyrinth contains a stimulating and useful collection of essays by historians reflecting on American intellectual history As a whole the book convinces the reader that the field of intellectual history is enjoying a renaissance The book will be especially prized by intellectual historians but historians of many different persuasions will find these essays rewarding too Choice Intellectual history has never been more relevant and more important to public life in the United States In complicated and confounding times people look for the principles that drive action and the foundations that support national ideals American Labyrinth demonstrates the power of intellectual history to illuminate our public life and examine our ideological assumptions This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest Raymond Haberski Jr and Andrew Hartman asked a group of nimble sharp scholars to respond to a simple question How might the resources of intellectual history help shed light on contemporary issues with historical resonance The answers all rigorous original and challenging are as eclectic in approach and temperament as the authors are different in their interests and methods Taken together the essays of American Labyrinth illustrate how intellectual historians operating in many different registers at once and ranging from the theoretical to the political can provide telling insights for understanding a public sphere fraught with conflict In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize enliven and define our lives Ultimately as Haberski and Hartman show in this volume the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas

*Aesthetic Origins* Jay Patrick Starliper, 2017-07-28 While it is gaining in academic prominence discussion of the imagination is too often neglected Society is dangerously unaware of the intimate relationship between culture and politics ethics and aesthetics Challenging this Jay Patrick Starliper examines the imagination through

the lens of the work of Peter Viereck and other likeminded thinkers The result is a philosophical deconstruction that demonstrates why books are bullets In 1941 before Nazi barbarism was public knowledge a young Peter Viereck published *Metapolitics From Wagner and the German Romantics to Hitler* In it Viereck attacked the diabolical spiritual foundations of National Socialism He made the ostensibly absurd claim that a certain shade of romanticism was the ethical foundation of a German revolt against decency According to Viereck Nazism was the culmination of over a century and a half of bad culture the result of an idyllic imagination Starliper warns that the same diseased imagination that culminated in gas chambers and guillotines is subtly affecting the way millions of people view the world today and that without the inspiration of an elevated aesthetic civilization will not survive In the spirit of Edmund Burke and Irving Babbitt Viereck s insight into the ethical and political force of aesthetics provides a much needed critique of contemporary civilization     **Conservatism** Peter Viereck,2011-10-01     The Philosopher's Index ,2006 Vols for 1969 include a section of abstracts     **The New Criterion** ,2006     **Choice** ,2005     *Index to Legal Periodicals & Books* ,2006     Book Review Index ,2006 Every 3rd issue is a quarterly cumulation     **Outside, Looking in** Dorothy Buckton James,1972     Who Was Who in America; With Notables 1942-2006 Marquis Who's Who,2006     Books on Trial ,1956     **Contemporary Political Ideologies** Lyman Tower Sargent,1990 Since 1969 this book has been praised for its breadth of coverage and clarity It goes beyond the usual bland ahistorical and static mass of information to present arguments positions and counterpositions This edition includes coverage of events in China and the USSR liberation theology environmentalism and the fourth world     *Merit Students Encyclopedia* ,1980     The New Republic Herbert David Croly,1981     **The American Political Science Review** ,1951-03
