# Conservatives In An Age Of Change The Nixon And Ford Administrations

**Leonard Williams Levy, Louis Fisher**

## **Conservatives In An Age Of Change The Nixon And Ford Administrations:**

Conservatives in an Age of Change James Reichley, 1981 From 1969 to 1977 the executive branch of the U S government was dominated by politicians and their advisers who called themselves conservatives In their speeches they professed belief in such values and institutions as social order military strength market capitalism governmental decentralization and traditional morality But did these social ideas have much influence on their actual policy decisions Or were their decisions as some observers have argued largely based on personal ambition partisan interest and pragmatic response to the day to day problems of government To answer these questions A James Reichley examines the effects of conservative ideology on the formation of specific administration policies under the presidencies of Richard Nixon and Gerald Ford The policies covered include the development of detente with the Soviet Union welfare reform revenue sharing resistance to busing the imposition of wage and price controls in 1971 and governmental reorganization under Nixon and under Ford adjustment to the rise of the third world and problems with detente the drive for decontrol of oil prices and the fight against inflation In the last chapter Reichley considers whether the Nixon and Ford administrations can be truly described as conservative and suggests what the future role of conservatism in American politics is likely to be *Gerald Ford and the Separation of Powers* Alex E. Hindman, 2017-02-03 The constitutional presidency is the crown jewel of the separation of powers in the American system Designed in 1787 the office was structured to weather a wide variety of political circumstances accommodate broad ranges of personalities in its incumbents and educate officeholders to become better presidents Nowhere are these three effects clearer than during the brief unelected tenure of President Gerald Ford because he occupied the presidency amid tremendous strains on the country and the separation of powers After the dual traumas of Watergate and Vietnam the public was profoundly skeptical of government in general and the presidency in particular As a result the post Watergate Congress claimed the mantle of public support and proposed reforms that could have crippled the presidency s constitutional powers Weakened by the Nixon pardon Ford stood alone in this environment without many of the informal political strengths associated with the modern presidency As a result he had to rely in large measure on the formal powers of his constitutional office Based on archival research this book shows that Ford s presidency placed the Constitution at the center of his time in office The constitutional presidency allowed him to preserve his own political life his presidential office and the separation of powers amid a turbulent chapter in American history Conservative Capitalism in Britain and the United States Raymond Plant, Kenneth Hoover, 2014-08-21 The shock waves of conservative advances have reached into every corner of American and British politics Parties of the right have prospered while parties of the left have stumbled retreated and are now regrouping The agenda for both right and left is set by the terms of the free market doctrines that have displaced the post war consensus politics of liberal capitalism This volume describes and challenges the ideological basis of the free market right Though critiques of the policies of the Reagan and Thatcher governments are hardly in short supply this major new study offers the

most thorough and up to date analysis available No other book considers in such depth conservative ideas and policies on both sides of the Atlantic It provides the first clear account of the distinction between conservative and other forms of capitalism It also examines the fault lines dividing opposing camps within conservative capitalism and their consequences for domestic policy in Britain and the US Linking political theory and public policy it is one of the few critical appraisals of the New Right based on a clear understanding of what the arguments for the free market really are Finally the authors demonstrate what the left needs to learn from its failures how to remould its understanding of the relationship between politics and the market and how to recapture the lost initiative

**The Presidency of Richard Nixon** Melvin Small,1999 A lively anecdotal account features every facet of Nixon s controversial administration just in time for the 25th anniversary of his history making resignation from the presidency 23 photos

The Presidential Difference Fred I. Greenstein,2001-02-28 As Americans choose and install a new president for a new century they could do no better than to read this work by one of our keenest observers of the modern presidency Drawing on a quarter century s immersion in the presidential record and scores of interviews Fred I Greenstein provides a fascinating and instructive account of the qualities that have served well and poorly in the Oval Office from Franklin D Roosevelt s first hundred days to the end of the Clinton administration Greenstein offers a series of bottom line judgments on each of his eleven subjects and a bold new explanation of why presidents succeed or fail Previous analysts have placed their bets on the president s political prowess or personal character Yet by the first standard LBJ should have been our greatest president and by the second the nod would go to Jimmy Carter Greenstein surveys each president s record in public communication political skill vision cognitive style and emotional intelligence He concludes that the last is by far the most important According to Greenstein FDR provides endless positive lessons but is a source of warnings Truman let his bizarre readings of history lead him astray Eisenhower was wise but failed to communicate a vision Kennedy had no vision Reagan was Carter in reverse It is Ford who is most unappreciated and genuinely interesting Ford balanced many conflicting demands kept his poise and left the office much stronger than he found it Presidents can avoid failure if they are willing to accept the warnings of failures past and act accordingly But it is not only presidents who should read this book with care Some flaws cannot be overcome no matter how otherwise talented the man Only three of Greenstein s eleven modern presidents were fundamentally free of distracting emotional perturbations When we choose our presidents we will do well to listen to Greenstein and Beware the presidential contender who lacks emotional intelligence In its absence all else may turn to ashes

Ideologies and Institutions Richard J. Piper,1997-05-08 In this important and original book J Richard Piper provides the most comprehensive examination to date of the profound impact of ideological prescriptions on twentieth century American politics Piper analyzes the institutional and constitutional developments associated with the American conservative liberal paradigm from the New Deal to the present focusing on constitutional jurisprudence presidential congressional relations the role of the judiciary federalism and the administrative

state Concluding that America's competing constitutional philosophies frequently serve not as ends in themselves but as instruments for attaining power and policy goals Piper raises significant questions about the future of the conservative liberal dichotomy that has characterized American politics since the New Deal Ideologies and Institutions is unique in its focus on institutional prescriptions and its integration and synthesis of extensive history political science and sociology literature Anyone interested in constitutional issues political history and the distinctions between the liberal and conservative philosophies will find Ideologies and Institutions valuable Politics and Jobs Margaret Weir, 2021-03-09 Americans claim a strong attachment to the work ethic and regularly profess support for government policies to promote employment Why then have employment policies gained only a tenuous foothold in the United States To answer this question Margaret Weir highlights two related elements the power of ideas in policymaking and the politics of interest formation **The Presidency of Gerald R. Ford** John Robert Greene, 1995 In addition Greene details Ford's rise to prominence within the Republican party chronicles the president's problematic relations with his staff the new Democratic Congress and Ronald Reagan sheds new light on the selection and performance of Vice President Nelson Rockefeller offers new insights into the election of 1976 and provides the first in depth look at Ford's clemency program for Vietnam era draft evaders Attack Politics Emmett H. Buell, Lee Sigelman, 2008 Ask most Americans and they'll tell you that presidential campaigns get dirtier and more negative with every election This text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn't increased **Chronic Politics** Philip J. Funigiello, 2005 Funigiello unlocks the puzzle of why the United States has never guaranteed its citizens health security comparable to that enjoyed by people of other first world nations and he tells what needs to happen for policy reform to take place Examining specific episodes in the history of health care financing he highlights the importance of key individuals in the legislative process the political haggling involved in shaping a bill the clash of personalities and agendas that determines its fate and the extent to which American ideas about fairness are reflected in the result **BOOK JACKET** *The Age of Deficits* Iwan W. Morgan, 2009 This first historical study of U.S. budget policy covering the last three decades places the budget at the center of modern American politics and adds an important dimension to the understanding of recent events **The Development of American Public Policy** David Brian Robertson, Dennis R. Judd, 1989 *Gerald R. Ford* Frank H. Mackaman, 1994 Nation of Nations James West Davidson, 1994 Democracy Challenged John Edward Wilz, 1990 The Modern Presidency and Economic Policy John P. Frendreis, Raymond Tatalovich, 1994 **The World Book Encyclopedia**, 1990 An encyclopedia designed especially to meet the needs of elementary junior high and senior high school students **Nixon Reconsidered** Joan Hoff, 1994-07-13 Richard Nixon's notoriety regarding Watergate and foreign policy obscured the domestic achievements of his administration Now in this major work of revisionist history Joan Hoff asserts that the late president's reforms in welfare civil rights and economic and environmental policy greatly overshadowed the things for which

he is better remembered      *The National Experience: A history of the United States since 1865* John Morton Blum, Edmund S. Morgan, 1993 A history of the United States with an emphasis on public policy Includes maps photos charts and suggestions for further reading      Encyclopedia of the American Presidency Leonard Williams Levy, Louis Fisher, 1994 Contains 1 011 articles by 335 contributors from all regions of the country representing many disciplines and institutions captures the origin evolution and constant unfolding of the American presidency
