Soil Conservation ,1953 **Joint Conference of Those Interested in the Conservation and Development of the Natural Resources of Michigan** Michigan. Public Domain Commission,1912 *Evidence-based Conservation* Terry C.H. Sunderland,Jeffrey Sayer,Hoang Thi Minh Ha,2012-09-10 There is a considerable gap between the science of conservation biology and the design and execution of biodiversity conservation projects in the field Science is often failing to inform the practice of conservation which remains largely experience based The main reason is the poor accessibility of evidence on the effectiveness of different interventions This is the basis for this book adopting an evidence based approach modelled on the systematic reviews used in health sciences and now being applied to many policy arenas Evidence based Conservation brings together a series of case studies written by field practitioners that provides the evidence base for evaluating how effective conservation and poverty alleviation strategies can be better implemented A series of systematic reviews uses experiences and data from fifteen integrated conservation and development projects conducted in the Lower Mekong region specifically in Vietnam Laos and Cambodia They provide wide ranging overviews of the effectiveness of protected areas and how innovative tools and methods for monitoring and evaluation can be utilised for more effective outcomes Results are in the form of management and policy recommendations based on the quality of evidence and the cost utility of the intervention By bridging the gap between field practice and conservation the analysis should lead to more effective integrated conservation and development interventions The book represents one of the first attempts to apply the evidence based approach to conservation and development *Forest Products, Livelihoods and Conservation: case studies of non-timber forest product systems. volume 1 - Asia* Koen Kusters,Brian Belcher,2004-01-01 V 1 Asia Editors Koen Kusters and Brian Belcher V 2 Africa
