Considering Art In Tasmania:

Considering Art in Tasmania Elwyn Lynn, Laura Murray, 1985 *EcCentric Visions* Gaile McGregor, 2006-01-01 What this book represents is quite literally a slice of white Australian life By noting the patterns and parallels that emerge in a random sampling of social phenomena of widely varying types from soap operas to political behaviour Gaile McGregor has constructed a model that in its challenge to uniformitarianism is a test case in ethnographic theory Using methods ranging from the hermeneutic through the structuralist to the psychoanalytic McGregor deploys the self evidence of communal life and language to establish not only that all cultural phenomena are patterned but that this patterning is unique to and consistent across the entire system Further it not only influences but constrains the way the Australian conceptualizes codifies and expresses his her existential position Hence the Australian predilection for icons of intermediacy the verandah in architecture the bush in literature the beach in folk culture the middle ground in landscape painting the pub in everyday life This identification with buffer zones between inside and outside not only mimics the Australian s real bracketing between desert and ocean but embodies his her sense of disablement vis vis both culture and nature art and techne super ego and id all of which are coded as feminine **The New McCulloch's Encyclopedia of Australian Art** Alan McCulloch, Susan McCulloch, Emily McCulloch Childs, 2006 Widely regarded as the authoritative reference on Australian art with its extensive colour plates and 4500 entries Fully illustrated with more than 700 images on 1200 pages Entries include Aboriginal art Abstractionism art links sculptors photographers craft workers and printmakers and much more *History of West and South-West Tasmania* Tim Jetson, Richard Ely, 1995 *New Collecting: Exhibiting and Audiences after New Media Art* Beryl Graham, 2016-04-29 The collections of museums galleries and online art organisations are increasingly broadening to include more new media art Because new media is used as a means of documenting archiving and distributing art and because new media art might be interactive with its audiences this highlights the new kinds of relationships that might occur between audiences as viewers participants selectors taggers or taxonomisers New media art presents many challenges to the curator and collector but there is very little published analytical material available to help meet those challenges This book fills that gap Drawing from the editor s extensive research and the authors expertise in the field the book provides clear navigation through a disparate arena The authors offer examples from a wide geographical reach including the UK North America and Asia and integrate the consideration of audience response into all aspects of their work The book will be essential reading for those studying or practicing in new media curating or museums and galleries *Memory, Monuments and Museums* Marilyn Lake, 2006 This collection by Australia s leading writers scholars and activists discuss the ways in which we record preserve and sometimes re create our histories and how the power of memory and the past shapes the present and our identity The essays are taken from the Australian Academy of the Humanities 2004 Symposium **Papers and Proceedings of the Royal Society of Tasmania** Royal Society of Tasmania, 1903 Vols for 1878 1879 1881 1884 contain List

Tasmanian Year Book ,1995 Homophobia Shirleene Robinson,2008 Homophobia is a prejudice with effects that extend far beyond the gay and lesbian community While its physical emotional and social effects have been charted to some extent the development of homophobia in Australia has yet to be fully explored Homophobia An Australian History is the first book to consider homophobia in a distinctively Australian context In this collection thirteen well known scholars examine the embedded homophobic attitudes that Australian gay and lesbian activists have fought to change The book traces the evolution of homophobia from its expression in Australia's past as a colonial settler society through to manifestations in present day society The compilation of this text is timely given the 2007 release of the Same Sex Same Entitlements report of the Human Rights and Equal Opportunity Commission The release of this report which focused on institutionalised and legal homophobia has raised public awareness of these issues and sparked broader debates about homosexual rights The thirtieth anniversary of Sydney's Gay and Lesbian Mardi Gras earlier this year also offers an ideal opportunity to reflect on the past gains and future goals of the gay and lesbian rights movement The collected chapters in this book argue that homophobia developed in conjunction with the growth of a modern homosexual identity in the second half of the nineteenth century To various extents the legal and medical professions and other social institutions have perpetuated homophobic attitudes Homophobia An Australian History raises awareness of the devastating impact these attitudes can have on individuals and on
