Considering Parenthood A Handbook For Lesbians:

Handbook of Parenting: Being and becoming a parent Marc H. Bornstein, 2002 Despite the fact that most people become parents and everyone who has ever lived has had parents parenting remains a mystifying subject about which almost everyone has opinions but about which few people agree Striking permutations on the theme of parenting are emerging single parenthood blended families lesbian and gay parents and teen versus fifties first time moms and dads Divided into four volumes the Handbook of Parenting is concerned with different types of parents basic characteristics of parenting forces that shape parenting problems faced by parents and the practical sides of parenting Contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about Because development is too subtle dynamic and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny *The Lesbian and Gay Parenting Handbook* April Martin, 1993 Through the voices of lesbian and gay parents and their children talking about their experiences Martin shows how to build the kind of support network that all parents need *Reader's Guide to Lesbian and Gay Studies* Timothy F. Murphy, 2000 A guide to existing academic literature on issues persons periods and topics important in lesbian and gay studies With a focus on book length studies in English entries offer a very brief introduction and a more detailed overview of the secondary literature including the relative merits of each source under consideration While the overall arrangement of entries is alphabetical other means of access include a booklist general indexes cross references and a thematic list African American culture AIDS art and artists Asian studies biological sciences lesbian and gay culture education family gender studies history law literature media studies medicine music performing arts politics psychology philosophy and ethics and others Annotation copyrighted by Book News Inc Portland OR Handbook of Parenting Marc H. Considering Parenthood Cheri Pies,1985 **Adoption by Lesbians and Gay Men** David M. Brodzinsky,Adam Pertman,2011-08-25 The practice of adoption has changed dramatically over the past half century with profound implications for children and families Perhaps the most remarkable and controversial transformation during this time has been the growing willingness of adoption professionals to place children with sexual minority individuals and couples Yet despite considerable research showing that lesbians and gay men can make good parents they continue to experience difficulties and barriers in many parts of the country in their efforts to adopt and raise children Indeed while progress in this area has been significant it has been impeded by the homophobia and heterosexist attitudes of adoption professionals and the judiciary by numerous stereotypes and misconceptions about parenting by lesbians and gay men and by a lack of adequate guidelines and training for establishing best practice standards in working with this rapidly growing group of adoptive parents Adoption by Lesbians and Gay Men explores the gamut of historical legal sociological psychological social casework and personal issues related to adoption by sexual minority individuals and couples Leading experts in a variety of fields address and often shatter the controversies myths and misconceptions hindering efforts by these individuals to adopt and raise children What makes this book all the more valuable is that it provides insights and specific recommendations for establishing empirically validated best practices for working with an important sector of our society for treating all prospective and current parents fairly and equally and perhaps most importantly for increasing a still largely untapped resource for providing families for children who need them

Handbook of Parenting: Status and social conditions of parenting Marc H. Bornstein,1995 V 1 Children and parenting v 2 Biology and ecology of parenting v 3 Status and social conditions of parenting v 4 Applied and practical parenting **The American University Journal of Gender & the Law** ,1993 The Queer Parent's Primer Stephanie A. Brill,2001 When a family is headed by two women which one is

the mommy If two dads show up at the soccer game what do you tell your teammates As families evolve into new constellations the practical challenges attached to raising children are enormous There may be custody disputes public queer bashing and other forms of homophobic intolerance that the whole family is forced to endure This empathetic guide offers gay and lesbian parents some real life parenting solutions to the many obstacles they encounter Through examples and interactive exercises author Stephanie Brill encourages parents to think their way through conflict and find ways to define and protect their family and nourish a proud and loving household There is plenty of concrete advice to help readers present their families with pride and to teach children to resist gender stereotyping The author deftly handles loaded issues such as coming out finding culturally sensitive childcare and making decisions about spirituality and family celebrations The special concerns of single parents and the complications of breaking up are addressed as well

Textbook of Homosexuality and Mental Health Robert P. Cabaj, Terry S. Stein, 1996 Textbook of Homosexuality and Mental Health brings together in one volume the entire range of material and variety of perspectives concerning homosexuality and mental health With more than 50 chapters written by leaders in the field this book is the most complete review of the topics of homosexuality and mental health and treatment of gay men lesbians bisexuals and transsexuals to date Starting from the belief that homosexuality is a normal variation of human sexuality and not a mental illness this revolutionary book presents current information on homosexuality from a mental health and medical perspective Sections focus on demographic cultural genetic biological and psychological perspectives development throughout the life cycle relationships and families psychotherapy multicultural identities and communities professional education and medical care A variety of special issues such as sexuality substance abuse violence suicide religion and HIV AIDS are discussed Also included are several unique chapters that cover topics not readily available elsewhere among them transsexuality minority gay lesbian and bisexual people the impact of the sexual orientation of the therapist latency development in prehomosexual boys and clinical issues specific to psychotherapy with gay lesbian and bisexual patients The clinical and theoretical richness contained in this volume makes it an accessible and invaluable reference for clinicians and the general public alike Chapters complement each other while providing enough information to be useful if read on their own
