Consortium On Revolutionary Europe 1981:

The Consortium on Revolutionary Europe, 1750-1850 Consortium on Revolutionary Europe. Meeting, Harold Talbot Parker, Louise S. Parker, John C. White, 1981 Proceedings [puis] Selected Papers THE CONSORTIUM ON REVOLUTIONARY EUROPE : 1750-1850. Congrès, 1981 **The French Revolution in Global Perspective** Suzanne Desan, Lynn Hunt, William Max Nelson, 2013-04-15 The French Revolution in Global Perspective illuminates the dense connections among the cultural social and economic aspects of the French Revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues Believe i Situating the French Revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects A distinguished group of contributors shows that the political culture of the Revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as India Egypt Guiana and the Caribbean This international approach helps to explain how the Revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion The essays examine topics including the role of smuggling and free trade in the origins of the French Revolution the entwined nature of feminism and abolitionism and the influence of the French revolutionary wars on the shape of American empire **Reform, Revolution and French Global Policy, 1787-1791** Jeremy J. Whiteman, 2017-09-19 The period following the American War of Independence was for the France of Louis XVI the high water mark of its diplomatic prestige With France s arch rival Britain humbled by the loss of her main north American colonies and deprived of any significant continental alliances Louis felt confident that France could at last re assume its natural role as the economic political and military leader of Europe That this did not happen and if anything France s international prestige sunk even lower was a bitter pill for its rulers and one that was to have important ramifications beyond the sphere of foreign policy Indeed continued frustration at France s impotence on the world stage became a pressing domestic issue with radically opposing solutions being put forward to bring about a national regeneration This work focuses on the policy responses of the National Constituent Assembly to the issues of global competition especially in the maritime colonial and economic sphere and with particular reference to Anglo French rivalry These responses are contrasted to the policies of the reforming royal government of the Pre Revolution of 1787 1789 From this analysis of the Old and New Regimes respective global policies it is shown how French responses to the demands of international competition played a role in both fostering and shaping the Revolution of 1789 Moreover Whiteman argues that in spite of profound ideological differences in material terms there was a significant degree of continuity between the policies of the Constituent deputies and the Old Regime royal government **Historians of Early Modern Europe** ,1961 **Bibliography of European Economic and Social History** Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains

10 000 references to the economic and social history of 30 European countries during the period 1700-1939. More than 3000 periodicals have been consulted to obtain references as well as books, edited collections and conference proceedings. The information is listed in categories such as industry, agriculture, finance, migration, labour conditions, urban communities and organizations. Full publication details are included so that references may be located easily.
