## **Conspiracy Ulster Plots And Plotters In 1615:**

*The plantation of Ulster* Micheál Ó Siochrú, Eamonn O' Ciardha, 2021-02-02 This book is the first major academic study of the Ulster Plantation in over 25 years The pivotal importance of the Plantation to the shared histories of Ireland and Britain would be difficult to overstate It helped secure the English conquest of Ireland and dramatically transformed Ireland's physical political religious and cultural landscapes The legacies of the Plantation are still contested to this day but as the Peace Process evolves and the violence of the previous forty years begins to recede into memory vital space has been created for a timely reappraisal of the plantation process and its role in identity formation within Ulster Ireland and beyond This collection of essays by leading scholars in the field offers an important redress in terms of the previous coverage of the plantations moving away from an exclusive colonial perspective to include the native Catholic experience and in so doing will hopefully stimulate further research into this crucial episode in Irish and British history

**The 'Mere Irish' and the Colonisation of Ulster, 1570-1641** Gerard Farrell, 2017-10-10 This book examines the native Irish experience of conquest and colonisation in Ulster in the first decades of the seventeenth century Central to this argument is that the Ulster plantation bears more comparisons to European expansion throughout the Atlantic than as some historians have argued the early modern state's consolidation of control over its peripheral territories Farrell also demonstrates that plantation Ulster did not see any significant attempt to transform the Irish culturally or economically in these years notwithstanding the rhetoric of a civilising mission Challenging recent scholarship on the integrative aspects of plantation society he argues that this emphasis obscures the antagonism which characterised relations between native and newcomer until the eve of the 1641 rising This book is of interest not only to students of early modern Ireland but is also a valuable contribution to the burgeoning field of Atlantic history and indeed colonial studies in general

*Ireland from Independence to Occupation, 1641-1660* Jane H. Ohlmeyer, 2002-11-07 Between 1641 and 1649 for the first time before 1922 Ireland was recognised by the international community as an independent nation Even though the Cromwellian conquest of 1649 made short work of Catholic Ireland's revolution it nevertheless ranks as one of the most successful revolts of early modern history This interdisciplinary collection of essays examines how the tumultuous events of the 1640s and 1650s transformed the course of Ireland's history The contributors consider throughout why Restoration Ireland after 1660 was such a different world from that of the Stuart era Was the change due simply to the passage of 20 years or to war in the 1640s followed by English occupation in the 1650s During these decades did active forces of change outweigh those of continuity in shaping Irish society identities warfare religious beliefs and economic and tenurial practices These essays seek to set Ireland in its wider European and British contexts

**Making Ireland British 1580-1650** Nicholas Canny, 2001-05-03 This is the first comprehensive study of all the plantations that were attempted in Ireland during the years 1580-1650 It examines the arguments advanced by successive political figures for a plantation policy and the responses which this policy elicited from

different segments of the population in Ireland The book opens with an analysis of the complete works of Edmund Spenser who was the most articulate ideologue for plantation The author argues that all subsequent advocates of plantation ranging from King James VI and I to Strafford to Oliver Cromwell were guided by Spenser's opinions and that discrepancies between plantation in theory and practice were measured against this yardstick The book culminates with a close analysis of the 1641 insurrection throughout Ireland which it is argued steered Cromwell to engage in one last effort to make Ireland British

**Edmund Spenser's Irish Experience** Andrew Hadfield, 1997-05-29 Spenser's Irish Experience is the first sustained critical work to argue that Edmund Spenser's perception and fragmented representation of Ireland shadows the whole narrative of his major work The Faerie Queene traditionally regarded as one of the finest achievements of the English Renaissance The poem has often been read in specifically English contexts but as Hadfield argues demands to be read in terms of England's expanding colonial hegemony within the British Isles and the ensuing fear that such national ambition would actually lead to the destruction of England's post Reformation legacy Spenser should be seen less as an English writer and more as a new English writer in Ireland his prose and poetry expressing the hopes and fears of his class Where A View of the Present State of Ireland attempts to provide a violent political solution to England's Irish problem The Faerie Queene exposes the apocalyptic fear that there may be no solution at all The book contains an analysis of Spenser's life on the Munster plantation readings of the political rhetoric and antiquarian discourse of A View of the Present State of Ireland and three chapters which argue the case that the apparently Anglocentric allegory of The Faerie Queene reveals a land gradually but clearly transformed into its Irish other Spenser emerges from this study as a writer whose experience in Ireland rendered him implacably opposed to the vacillations of his English monarch

**Political Ideology in Ireland, 1541-1641** Hiram Morgan, 1999 This collection of essays arising out of a seminar organized by the Folger Library Washington provides an in depth analysis of the period's writings It looks at the work of Spenser and other colonial writers but also at the work of more neglected Irish writers attempting to discern what they thought about their country and its predicament Ulster 1641

Brian Mac Cuarta, 1993 **Contested Island** S. J. Connolly, 2009-07-30 This definitive study of Ireland's transformation from a medieval to a modern society looks at the way in which the country's different religious groups and nationalities clashed and interacted during the transition

**Irish Migrants in Europe After Kinsale, 1602-1820** Thomas O'Connor, 2003 The battle of Kinsale 1601 fought during the Nine Years War of 1594-1603 marked a turning point in European and Irish history Although the political power of the Gaelic nobility was broken and royal authority in the kingdom was enhanced Ireland remained strategically important for other European powers especially Spain and France Therefore when political social and religious changes at home caused many Irish to migrate temporarily or permanently they headed for Habsburg and Bourbon territories Irish Popular Culture, 1650-1850 James S. Donnelly, Kerby A. Miller, 1998 A book edited by two such distinguished historians as James S Donnelly Jr and Kerby A Miller promises to be lively and important

this collection of ten essays fully lives up to the expectations raised by the editorial imprimatur The articles by an impressive panel of authors are source based and the tight editorial control is reflected in the way in which they complement one another American Historical Review *Ulster Journal of Archaeology*, 2005 *Civil War and Restoration in the Three Stuart Kingdoms* Jane H. Ohlmeyer, 2001 Ohlmeyer history Aberdeen U sets out to discover whether Irish statesman MacDonnell 1609-83 deserved indeed deserves the dismal reputation he acquired among his contemporaries and has steadfastly maintained amongst historians every since She traces his career chronologically from his 1635 marriage to the duchess of Buckingham through the upheavals of civil war interregnum and restoration to his return to his County Antrim estates in 1665 She adds a short new preface to the reprint the 1993 original was published by Cambridge University Press Distributed in the US by ISBS c Book News Inc **Settlement and Survival on an Ulster Estate** Raymond Gillespie, 1988

Irish Historical Studies, 1994 Vols 1 include the sections Writings on Irish history 1936 Research on Irish history in Irish universities varies slightly 1937-38 Kingdoms in Crisis Micheál Ó Siochrú, 2001 This book charts developments in Ireland in the aftermath of the Ulster rising in October 1641 For the next twelve years the island was engulfed in a ruinous conflict involving Irish confederates Scottish covenanters English parliamentarians and royalists from each of the three Stuart kingdoms The 1640s however also witnessed a variety of political constitutional military and cultural initiatives centred primarily though by no means exclusively on the confederate administration in Kilkenny Following on from the pioneering research of Donal Cregan leading scholars in the field examine the major issues of the time in a series of challenging and accessible essays Publisher description **Ulster** Ciaran Brady, Mary O'Dowd, Brian Mercer Walker, 1989 During the present century the term Ulster has come to signify the six counties of present day Northern Ireland Historic Ulster however was one of the four provinces of Ireland embracing in addition the counties of Donegal Cavan and Monaghan This concise account traces the long and varied history of the region from the pre Norman Celtic period to the Anglo Irish Agreement of 1986

**The Reformation Unsettled** Jan Frans van Dijkhuizen, Richard Todd, 2008 Recent historical studies have emphasized that the English Reformation can no longer be seen as an inevitable response to abuses within the late medieval Western Catholic Church Contrary to Protestant stereotypes the late medieval Church catered to the spiritual needs of its members In addition the English Reformation was an incomplete process and even after the Elizabethan Settlement of 1559 English religious culture was full of continuities with the past with pre Reformation religious culture only partially displaced This essay collection investigates how the literature of the first century after the Elizabethan Settlement dealt with this cultural ambivalence Focusing on a mixture of canonical texts and less well known ones the contributors show that the religious hybridity of early modern England is found in a concentrated form in the literary texts of the period In contrast to theologians literary writers were not obliged to choose sides Literary discourse could confront incompatible doctrinal perspectives within a single text or forge a hybrid spiritual sensibility out of the competing religious traditions Literature sometimes in spite of

writers avowed denominational allegiances embraced explored and deepened the ambivalence of early modern English religious culture in a manner unavailable in other kinds of texts      *Catholic Revival in the North of Ireland, 1603-41* Brian Mac Cuarta, 2007 The resurgence of the Catholic Church is central to the religious history of early modern Ireland Covering the crucial years between its post war trauma in 1603 to its vigorous condition by the 1641 rising this book explores that process within the ecclesiastical province of Armagh embracing both Ulster and the northern Pale Northern Irish resentment at the structures of the Church of Ireland throws light on Catholic success in plantation Ulster Continentally trained priests secular and religious contributed much to the revival but they faced considerable opposition from traditionalist clergy In the Pale the close alliance of these clergy with the landed and urban c lites enabled the Catholic community to withstand the state s religious coercion which was prevalent down to about 1620 Thereafter building on educational links with the Continent established since the 1590s the Catholic Church although living with the internal tension between older and newer strands was able to adopt a more vibrant and assertive role      *Oxford Dictionary of National Biography: Norbury-Osborn* Henry Colin Gray Matthew, Brian Harrison, 2004 55 000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002      *Poets and Politics* Marc Caball, 1998
