Constitution In Wartime Beyond Alarmism And Complacency:

The Constitution in Wartime Mark Tushnet, 2005-01-26 Essays by leading constitutional scholars on the relationship between war powers and the Constitution in general and in the aftermath of September 11th **Beyond Constitutionalism** Nico Krisch, 2012-09-06 Under pressure from globalisation the classical distinction between domestic and international law has become increasingly blurred spurring demand for new paradigms to construe the emerging postnational legal order The typical response of constitutional and international lawyers as well as political theorists has been to extend domestic concepts especially constitutionalism beyond the state Yet as this book argues proposals for postnational constitutionalism not only fail to provide a plausible account of the changing shape of postnational law but also fall short as a normative vision They either dilute constitutionalism's origins and appeal to fit the postnational space or they create tensions with the radical diversity of postnational society This book explores an alternative pluralist vision of postnational law Pluralism does not rely on an overarching legal framework but is characterised by the heterarchical interaction of various suborders of different levels an interaction that is governed by a multiplicity of conflict rules whose mutual relationship remains legally open A pluralist model can account for the fragmented structure of the European and global legal orders and it reflects the competing and often equally legitimate claims for control of postnational politics However it typically provokes concerns about stability power and the rule of law This book analyses the promise and problems of pluralism through a theoretical enquiry and empirical research on major global governance regimes including the European human rights regime the contestation around UN sanctions and human rights and the structure of global risk regulation The empirical research reveals how prevalent pluralist structures are in postnational law and what advantages they possess over constitutionalist models Despite the problems it also reveals the analysis suggests cautious optimism about the possibility of stable and fair cooperation in pluralist settings *The Restatement and Beyond* Paul B. Stephan, Sarah H. Cleveland, 2020-09-18 This book provides a comprehensive survey of the most significant issues in contemporary U S foreign relations law by leading contributors in the field Reflecting on the recently published Fourth Restatement of the Foreign Relations Law they review the context and assumptions on which that work relied critique its analysis and conclusions and explore topics left out that need research and development The Constitution in Wartime Mark Tushnet, 2005-01-26 Historical and contemporary examinations of the constitutional issues raised by war Risk Analysis of Natural Hazards Paolo Gardoni, Colleen Murphy, Arden Rowell, 2015-10-17 This volume investigates the interdisciplinary and cross cutting challenges in the risk analysis of natural hazards It brings together leading minds in engineering science philosophy law and the social sciences Parts I and II of this volume explore risk assessment first by providing an overview of the interdisciplinary interactions involved in the assessment of natural hazards and then by exploring the particular impacts of climate change on natural hazard assessment Part III discusses the theoretical frameworks for the evaluation of natural hazards Finally Parts IV

and V address the risk management of natural hazards providing first an overview of the interdisciplinary interactions underlying natural hazard management and then exploring decision frameworks that can help decision makers integrate and respond to the complex relationships among natural events the built environment and human behavior Emergencies in Public Law Karin Loevy, 2016-03-11 Debates about emergency powers traditionally focus on whether law can or should constrain officials in emergencies *Emergencies in Public Law* moves beyond this narrow lens focusing instead on how law structures the response to emergencies and what kind of legal and political dynamics this relation gives rise to Drawing on empirical studies from a variety of emergencies institutional actors and jurisdictional scales terrorist threats natural disasters economic crises and more this book provides a framework for understanding emergencies as long term processes rather than ad hoc events and as opportunities for legal and institutional productivity rather than occasions for the suspension of law and the centralization of response powers The analysis offered here will be of interest to academics and students of legal political and constitutional theory as well as to public lawyers and social scientists *Exodus From Empire* Terrence E. Paupp, 2006-11-20 This book lays out a comprehensive vision for a new world order based on cooperation between the developing world and leading Left countries in Latin America Arguing that the ravages of corporate capitalism are unsustainable Terrence E Paupp presents an energetic critique of the problems of empire and looks ahead to a global countermovement against the IMF and US hegemony **Bad Advice** Harold H. Bruff, 2009 A scathing critique of President Bush's legal advisors who expanded the reach of his executive powers while creating highly controversial policies for fighting the War on Terror Argues that these advisors blinded by ideology provided largely bad legal advice that caused great harm and ultimately was unnecessary for national security **American Cultural Pluralism and Law** Jill Norgren, Serena Nanda, 2006-07-30 Previous editions published 1996 2nd and 1988 1st **Symposium, a New Constitutional Order?** ,2006 **Symposium** ,2006 **Terrorism and the Constitution** H. L.
