Freedom and Constraint Fred Coalter, 2019-04-24 First published in 1989 In the climate of long term unemployment early retirement and technology that is seen to threaten jobs leisure has been presented as the solution to a multitude of social problems The essays in this collection represent the most important arguments on the problems myths and misunderstandings of leisure Arguing from a range of positions some sceptical others more idealistic they look at the complexities of this field and the social and political problems that surround it No single argument dominates What emerges is a live wire debate on class and gender employment and economic status age and education which brings the discussion of leisure controversially up to date The book based on papers presented to conferences of the Leisure Studies Association divides into sections on leisure and social change the relationship between leisure and social structures and the tension between leisure and employment It takes a critical look at leisure in Britain Sweden the Netherlands and the USA and at the paradoxes that will determine its future Whilst refusing to see leisure as a synonym for social progress and liberalization it argues that the quality of leisure reflects the quality of society itself

Sport Tourism Heather J. Gibson, 2013-09-13 The study of sport tourism is on the cusp of moving from a descriptive phase of research into an analytical phase Consequently many academics and graduate students are searching for theories upon which to ground their work This book draws upon theories and concepts from sociology and anthropology the socio cultural perspective sport and tourism studies and business studies One of the dangers of a new area of study is that the body of knowledge is built on a range of seemingly unrelated

studies By grounding work in a theoretical perspective future work can be linked to and contribute to building a cohesive understanding of various aspects of sport tourism This book is an edited collection written by some of the top scholars working in a particular domain throughout the world providing a compendium of theories and concepts that can be used to frame research on various aspects of sport tourism This volume was previously published as a special issue of the journal Sport in Society
