Construcción Productividad Empleo E Integración Re:

El sector de la construcción Marta Panaia, 2021-06-01 El presente volumen reúne mis trabajos de casi dos décadas sobre la industria de la construcción surgidos de las reflexiones y sistematizaciones por la preocupación creciente entre sus formas de organización y sus logros de productividad y calidad y por la persistente demanda hacia este sector de la generación de empleo. Muchas veces trabajé a partir de datos reconstruidos dificultosamente en trabajos de campo en obras en construcción porque en nuestro país son inexistentes y esto me demostró la validez de sistematizarlos en un volumen. Si bien se realizaron algunos retoques por razones de edición la mayoría de los capítulos responden a ponencias presentaciones conferencias o capítulos de libros ya editados en otras obras pero que al estar diseminados en diferentes publicaciones y no presentar una continuidad de lectura mantienen muy fragmentada mi propia reflexión más general sobre el sector sobre su importancia en la economía y sobre las posibilidades de su proyección en un futuro próximo. Construcción, 2000 Integración regional y relaciones industriales en América del Norte, 1996 Vivienda social Ruben Gazzoli, 2021-06-01 Este libro plantea la importancia de la industria de la construcción en la economía y su significación política en particular la construcción de vivienda social. Se analizan los efectos de la acción estatal en este campo tanto a nivel nacional como regional y provincial teniendo en cuenta los períodos presidenciales posteriores a 1983. El comportamiento del submercado de alquileres se describe a partir de las diversas medidas gubernamentales adoptadas para evitar los efectos negativos sobre los locatarios de la variación de sus precios. Se describen las estrategias sociales de las familias carentes de recursos para acceder al alojamiento y a través de entrevistas a las mismas se establece el significado en sus vidas cotidianas de estas condiciones de alojamiento. Finalmente se muestra la posición ideológica de los principales diarios sobre algunas de estas estrategias.

Distinguiendo dos tipos de acuerdos en proceso de gestación y consolidación en el nivel hemisférico y examinando el papel del Estado nacional en la promoción de un desarrollo equitativo el libro trata de dilucidar la verdadera función de la integración regional latinoamericana en el ámbito del desarrollo con equidad. *Construcciones supranacionales e integración regional latinoamericana* Jaime Delgado, 2009
