## **Constructing A Psychology Of Teaching And Learning:**

*Constructing a Psychology of Teaching and Learning* Kelvin Seifert, 1999 This book supports the belief that individuals become effective teachers by actively constructing their own views of learning development and teaching It approaches the common topics of educational psychology through a contextualized view and first person narrative text inviting participation and reflection Back cover

**Constructing a Psychology of Teaching and Learning** Kelvin Seifert, 1999-01-01 This book supports the belief that individuals become effective teachers by actively constructing their own views of learning development and teaching It approaches the common topics of educational psychology through a contextualized view and first person narrative text inviting participation and reflection Back cover

**Educational Psychology: Constructing Learning** Dennis M McInerney, 2013-08-15 Educational Psychology Constructing Learning 6e sets the standard for educational psychology texts in Australia and New Zealand with its comprehensive authoritative and research based coverage of the subject This edition includes completely updated content to reflect recent advances in the discipline including revised theory into practice features from 39 international developmental psychologists The author has retained the constructivist approach that made previous editions so engaging and relevant to student teachers and content has been constructed around the new Australian Profession Standards for Teachers

Constructivist Approaches and Research Methods Pam Denicolo, Trevor Long, Kim Bradley-Cole, 2016-09-07 This book provides a comprehensive overview of personal construct psychology PCP that will help researchers understand the why s what s and how s of conducting a rigorous constructivist research project From the theoretical underpinnings of constructivist approaches to the practical values of these techniques these three expert authors explain how to conduct interpretative constructivist research from inception to completion Key topics include Understanding research philosophies and paradigms Constructing and exploring personal realities Establishing effective research procedures Evaluating grids mapping narrative and other research methods Managing the practicalities of fieldwork Analysing and presenting data With activities and procedural examples from a wide range of disciplines woven throughout the text and two special chapters featuring in depth case studies from a variety of constructivist researchers this book helps readers grasp the tools designs and opportunities of interpretative research An essential companion for both researchers and practitioners looking to understand people s values attitudes beliefs perceptions or motivations

**Learning is a Verb** Sherrie Reynolds, 2017-05-12 This book explores a new way of thinking about teaching and learning Its central goal is to help us understand how we think and learn it will also help teachers understand children and offers a new and helpful perspective on the role of teaching The book provides an orientation or way of thinking about the psychological dimensions of teaching and learning This orientation is discussed in relation to cultural shifts that have influenced all fields of study in education and psychology the shift is reflected in the works of such scholars as Piaget Vygotsky Bruner and others Their work marks a change from a mechanical view of learning to a view of learning as

dynamic transformation In Learning Is a Verb Sherrie Reynolds discusses how thinking about teaching and learning must change so that we can create conditions that help children think and interact with one another in helpful healthy ways Her engaging conversational style together with many examples and observations will lead readers from reflection on their experiences to a deeper understanding of the changes needed in our educational system The Foundations and Technique of Curriculum-construction National Society for the Study of Education. Committee on Curriculum-Making,1926 The Foundations and Technique of Curriculum-construction National Society for the Study of Education. Committee on Curriculum Planning,National Society for the Study of Education. Committee on Curriculum-Making,1927 *Comparative Planetology, Geological Education, History of Geology* Wang Hongzhen,1997-06 First published in 1997 Routledge is an imprint of Taylor Francis an informa company *Constructing Worlds through Science Education* John K. Gilbert,2013-05-13 Internationally renowned and award winning author John Gilbert has spent the last thirty years researching thinking and writing about some of the central and enduring issues in science education He has contributed over twenty books and 400 articles to the field and is Editor in Chief of the International Journal of Science Education For the first time he brings together sixteen of his key writings in one volume This unique book highlights important shifts in emphasis in science education research the influence of important individuals and matters of national and international concern All this is interwoven in the following four themes explanation models and modeling in science education relating science education and technology education informal education in science and technology alternative conceptions and science education *Chicago Schools Journal* ,1920 Announcement of Teachers College, Columbia University Columbia University. Teachers College,1926 *Illinois Schools Journal* ,1920 *Education in Agriculture* Iowa State College of Agriculture and the Mechanical Arts,1914 *Administrative Procedures in Curriculum Making for Public Schools* Walter Dewey Cocking,1928 The Making of Character John MacCunn,1913 ... *Annual Register of the State University of Nevada for the Year ... with Announcements for the Academic Year of ...* University of Nevada,1922 **The Nation at Work on the Public School Curriculum** National Education Association of the United States. Department of Superintendence,1929 University of Texas Bulletin ,1928 **Education in the Making** Harold Davis Richardson,1929 **Intercultural Faultlines** Maeve Olohan,2017-09-29 Intercultural Faultlines offers an exploration of research models and methods in translation studies as implemented discussed and critically evaluated by some of the leading researchers in the field of translation and interpreting While the focus throughout is on textual and cognitive aspects of translation and interpreting the objects of study and consequently the methodological considerations are wide ranging The volume contains chapters focusing on research conducted in areas as diverse as corpus based translation studies dialogue interpreting simultaneous interpreting acquisition of translation competence cognitive processes in translation translation into the L2 creativity in translation and translation quality assessment Some research models and methods are applied to translation for the first time

while others are more established and can be assessed in terms of their reliability and the generalizability of the results they yield. Issues of research design and methodology are addressed and interesting questions are raised which are likely to become the focus of attention in future research for example with regard to causal models of translation, translational ethics, collaborative research and issues of power in interpreting research.
