## **Constructing Cross Country Obstacles:**

*Constructing Cross-country Obstacles* Bill Thomson,1972      *The Social Construction of Landscapes in Games* Dennis Edler,Olaf Kühne,Corinna Jenal,2022-06-25 The book is dedicated to a compilation of diverse and creative landscapes which occur in games Being part of a game setting these landscapes trigger social construction processes in specific ways A selection of twenty four research articles addresses the social constructions of landscapes represented in analogue digital and hybrid game formats as well as their theoretical framing and future perspectives      *Cross-country Course Design and Construction* Mike Etherington-Smith,2003 Written by an Olympic course designer this is an indispensable guide for anyone involved in the design and construction of cross country courses Whether you are designing fences for use at home planning a hunter trials or building an international course you will find plenty of practical guidelines For the competitor the book provides a meaningful guide to the art of cross country riding as seen from the designer s perspective In recent years there has been a marked change in the courses presented to the competitor the fences are generally more imposing the materials are bigger and the courses are undoubtedly more technical The responsibility of course designers has never been greater Competitors expect a good product and they need to know that a course has been built to the safest possible standard At the same time the course designer must produce a course which is challenging to horse and rider Mike Etherington Smith writes about the theory of course design siting of fences and use of natural features fences and courses in general distances shapes and profiles of fences design and construction of water obstacles combinations and bounces Basic advice about fence construction and the use of portable fences is included The book includes fence by fence plans and descriptions for three sample courses to suit riders of differing abilities These plans provide the reader with a fascinating insight to the art of course design Incorporating the latest thoughts on course safety and illustrated throughout with line drawings by Christine Bousfield and photographs this is the definitive work on the subject      *A Basic Guide to Building Cross-country Fences* Philip Herbert,Pony Club,2000 An essential companion for anyone whether they be inexperienced or well established setting out to build a cross country course Clear practical time and money saving advice is given on all aspects of course building from planning and equipment to health and product details The major part of the book is devoted to step by step instructions for building every type of basic obstacle from an L fence to a water complex Health and safety requirements are fully covered in an additional chapter The text is expertly complemented throughout by specially commissioned line drawings and photographs      *Pipeline Route Selection for Rural and Cross Country Pipelines* Nicholas B. Day,1998-01-01 This 1998 version of Manual No 46 Pipeline Route Selection for Rural and Cross Country Pipelines replaces Report on Pipeline Location published in 1965 Since that time many high technology items have been developed to benefit the Routing Engineer the Project Manager and other project team members In addition to technological developments this updated manual places much more emphasis on environmental regulatory and political issues related to pipeline route selection      **Surveying,**
