Post-Stabilization Politics in Latin America Carol Wise,Riordan Roett,2003-07-28 Over the last twenty years Latin America has seen a definitive movement toward civilian rule Significant trade fiscal and monetary reforms have accompanied this shift exposing previously state led economies to the forces of the market Despite persistent economic and political hardships the

combination of civilian regimes and market based strategies has proved to be remarkably resilient and still dominates the region This book focuses on the effects of market reforms on domestic politics in Latin America While considering civilian rule as a constant the book examines and compares domestic political responses in six countries that embraced similar packages of reforms in the 1980s Argentina Brazil Chile Mexico Peru and Venezuela The contributors focus on how ambitious measures such as liberalization privatization and deregulation yielded mixed results in these countries and in doing so they identify three main patterns of political economic adjustment In Argentina and Chile the implementation of market reforms has gone hand in hand with increasingly competitive politics In Brazil and Mexico market reforms helped to catalyze transitions from entrenched authoritarian rule Finally in Peru and Venezuela traditional political systems have collapsed and civilian rule has been repeatedly challenged The contributors include Carol Wise University of Southern California Karen L Remmer Duke University Carol Graham Brookings Institution Stefano Pettinato United Nations Development Programme Consuelo Cruz Tufts University Juan E Corradi New York University Delia M Boylan Chicago Public Radio Riordan Roett Johns Hopkins University Mart n Tanaka Institute for Peruvian Studies Lima and Kenneth M Roberts University of New Mexico

Crafting Constitutional Democracies Edward Schneier, 2006-04-27 By examining the institutions of government through the lens of constitution making Crafting Constitutional Democracies provides a broad and insightful introduction to comparative politics Drawn from a series of lectures given in Jakarta Indonesia on the drafting of the U S constitution the book illustrates the problems faced by generations of founders through numerous historic and contemporary examples Both Indonesia in 1999 and the United States in 1789 faced the same basic issue how to construct a central government for a large and diverse nation that allowed the majority of the people to govern themselves without intruding on the rights of minorities What kinds of institutions make for good government What factors need to be considered in designing a government Author Edward Schneier explores these questions through a rich variety of examples from both recent and

historic transitions to democracy Drawing frequently upon the arguments of the American Federalist Papers and more contemporary theories of democratization Crafting Constitutional Democracies lucidly explores the key questions of how and why democracies succeed and fail A concluding chapter on constitutional change and decline raises provocative and important questions about the lessons that citizens of the world s older democracies might take from the struggles of the new

Democratic Governance in Latin America Scott Mainwaring, Timothy R. Scully, 2009-11-24 Producing more effective governance is the greatest challenge that faces most Latin American democracies today a challenge that involves not only strengthening democratic institutions but also increasing governmental effectiveness Focusing on the post 1990 period this volume addresses why some policies and some countries have been more successful than others in meeting this dual challenge Two features of the volume stand out First whereas some analysts tend to generalize for Latin America as a whole this group of authors underscores the striking differences of achievement among countries in the region and illustrates the importance of understanding these differences The second feature is the range of expertise within the volume In addition to the volume editors the contributors are Alan Angell Daniel Brinks Fernando Henrique Cardoso Jos de Gregorio Alejandro Foxley Evelyne Huber Jos Miguel Insulza Juliana Mart nez Franzoni Patricio Navia Francisco Rodriguez Mitchell Seligson John Stephens Jorge Vargas Cullell and Ignacio Walker

At Home Abroad Henry R. Nau, 2018-09-05 The United States has never felt at home abroad The reason for this unease even after the terrorist attacks of September 11 2001 is not frequent threats to American security It is America s identity The United States its citizens believe is a different country a New World of divided institutions and individualistic markets surviving in an Old World of nationalistic governments and statist economies In this Old World the United States finds no comfort and alternately tries to withdraw from it and reform it America cycles between ambitious internationalist efforts to impose democracy and world order and more nationalist appeals to trim multilateral commitments and demand that the European and Japanese allies do more In At Home Abroad Henry R. Nau explains that America is still unique but no longer so very different All the industrial great powers in western Europe and arguably also Japan are now strong liberal democracies A powerful and peaceful new world exists beyond America s borders and anchors America s identity easing its discomfort and ending the cycle of withdrawal and reform Nau draws on constructivist and realist perspectives to show how relative national identities interact with relative national power to define U S national interests He provides fresh insights for U S grand strategy toward various countries In Europe the identity and power perspective advocates U S support for both NATO expansion to consolidate democratic identities in eastern Europe and concurrent but separate great power cooperation with Russia in the United Nations In Asia this perspective recommends a shift of U S strategy from bilateralism to concentric multilateralism starting with an emerging democratic security community among the United States Japan South Korea Australia New Zealand India and Taiwan and progressively widening this community to include reforming ASEAN states and if it democratizes China In the developing world Nau s approach calls

for balancing U S moral identity and material power commitments avoiding military intervention for purely moral reasons as in Somalia but undertaking such intervention when material threats are immediate as in Afghanistan or material and moral stakes coincide as in Kosovo

Latin America After Neoliberalism Eric Hershberg, Fred Rosen, 2006 In the 1980s Latin America became a laboratory for the ideas and policies of neoliberalism Now the region is an epicentre of dissent from neoliberal ideas and resistance to US economic and political dominance Latin America's political map is being redrawn Already half a dozen progressive governments have swept into power and more may follow This is a fascinating look at what is perhaps the most politically dynamic region in the world and an authoritative guide to the political movements and leaders that are part of this historic change

Fault Lines of Democracy in Post-transition Latin America Felipe Agüero, Jeffrey Stark, 1998 Concerns about democratization in Latin America today center not on the threat of authoritarian regression but on the depth quality fairness and completeness of democratization thus far Large scale economic and social reforms stronger and more complex civil societies and processes of integration and globalization call for new approaches in order to understand the unfolding of democracy in the region In this context the contributors to this volume explore the often disjunctive aspects of Latin American democracy providing a nuanced understanding of contemporary democratic governance
