Constructing Democratic Governance Latin America And The Caribbean In The 1990s Themes And Issues:

Constructing Democratic Governance Jorge I. Domínguez, Abraham F. Lowenthal, 1996-10 In Constructing Democratic Governance Jorge I Dominguez and Abraham F Lowenthal bring together a distinguished group of scholars to assess how well democracy has been working in this volatile part of the world The authors find that serious problems still plague these new democracies Many of these problems are related to the political institutions including political parties the civil service and the justice system Part I introduces broad thematic surveys of such key issues as the role of the left conservatism inequality and indigenous peoples Part II reviews the South American nations Part III focuses on Mexico Central America and the Caribbean including Cuba In Part IV the volume editors draw conclusions about the problems and prospects for stable democracies in Latin America In addition to the complete hardcover edition Constructing Democratic Governance is available in three paperback volumes each containing the introduction and conclusion from the complete edition and organized for convenient course use

Participatory Democracy versus Elitist Democracy: Lessons from Brazil W. Nylen, L. Dodd, 2015-12-22 William Nylen begins by discussing North Americans love hate relationship with politics and politicians then shows how Brazilians feel the same way as do many citizens of democracies throughout the world He argues that this is so because contemporary democracies have increasingly trickled up and away from so called average citizens We now live in a world of Elitist Democracies essentially constructed of by and for moneyed well connected and ethically challenged elites Fortunately there are alternatives and that s where Brazil offers valuable lessons Experiments in local level participatory democracy put into practice in Brazil by the Workers Party show both the promise and the practical limitations of efforts to promote popular participation and citizen empowerment

Financial Globalization and Democracy in Emerging Markets L. Armijo, 1999-01-13 When Mexico s peso crisis occurred in December 1994 all of Latin America experienced the tequila effect In January 1998 after seven months of financial turmoil in East Asia Alan Greenspan the usually reticent Chairman of the US Federal Reserve Bank noted that such vicious cycles may in fact be a defining characteristic of the new high tech international financial system This book examines the impact of the new highly liquid portfolio capital flows on governments opposition politicians business and the workforce in such emerging market countries as Mexico Brazil Russia Indonesia Vietnam Thailand and Indonesia Hailed as exemplary and innovative fine grained and accessible and a must read this collection of original essays is newly available in paperback

Peru John Crabtree, Francisco Durand, 2017-05-15 While leftist governments have been elected across Latin America this Pink Tide has so far failed to reach Peru Instead the corporate elite remains firmly entrenched and the left continues to be marginalised Peru therefore represents a particularly stark example of state capture in which an extreme concentration of wealth in the hands of a few corporations and pro market technocrats has resulted in a monopoly on political power Post the 2016 elections John Crabtree and Francisco Durand look at the ways in which these elites have been able to consolidate their position at the expense of genuine

democracy with a particular focus on the role of mining and other extractive industries where extensive privatization and deregulation has contributed to extreme disparities in wealth and power In the process Crabtree and Durand provide a unique case study of state development by revealing the mechanisms used by elites to dominate political discussion and marginalize their opponents as well as the role played by external actors such as international financial institutions and foreign investors The significance of Crabtree s findings therefore extends far beyond Peru and illuminates the wider issue of why mineral rich countries so often struggle to attain meaningful democracy

Authoritarian Legacies and Democracy in Latin America and Southern Europe Katherine Hite, Paola Cesarini, 2004 Among the challenges for democracies in Latin America and Southern Europe are weakened political parties politicized militaries compromised judiciaries corrupt police forces and widespread citizen distrust These essays offer an examination of the political structures and institutions bequeathed by authoritarian regimes

Cocaleros. Violence, drugs and social mobilization in the post-conflict Upper Huallaga Valley, Peru, 2009

Democratic Survivability in Latin America Scott Mainwaring, 1999 *British Bulletin of Publications on Latin America, the Caribbean, Portugal, and Spain*, 1996 *The Politics of Freeing Markets in Latin America* Judith A. Teichman, 2001 Politics of Freeing Markets in Latin America Chile Argentina and Mexico *Deepening Democracy* Francis Adams, 2003 Adams surveys the impact of transnational organizations NGOs on Latin American politics since 1990 Against the backdrop of democratization he argues that Latin America is a prime example of the increased influence of transnational authorities over domestic political decisions

Democracy and Its Limits Howard Handelman, Mark A. Tessler, 1999 These multidisciplinary essays combine an appreciation of the progress made in Third World democratization with an assessment of structural and cultural factors that limit further progress toward procedural democracy in many parts of the world such as China and much of the Middle East

Journal of International Affairs, 1997 **European Review of Latin American and Caribbean Studies**, 1998

Democratization and the Protection of Human Rights Patricia J. Campbell, Kathleen Mahoney-Norris, 1998-09-24 Explores the human rights challenges and contradictions of developing countries making the transition to democracy

Globalization, Neo-conservative Policies, and Democratic Alternatives John Loxley, 2005 Over the course of the last two decades governments around the world implemented a fundamental shift in the mainstream economic policy and ushered in a period of globalization These changes which are commonly known as neo conservative were resisted by a range of social forces from workers to farmers in the universities and on the streets With its diverse international perspectives of globalization and formulations of alternative economic policies this volume of essays responds to and posits alternatives for the uncreative and unjust policy decisions of world governments that negatively affect the welfare of the world s indigent people This book s unifying theme is the principle of social justice that motivates Loxley s life and work Loxley an economist is perhaps best known for his work in South Africa as an advisor to Nelson Mandela during the transition from apartheid and with First Nations communities in his native Canada Many of the 19 essays explore the

impact of globalization on the developing world particularly Africa A comprehensive and expansive exploration of the global impact of neo conservative economic policies from an internationally diverse group of scholarly voices Fault Lines of Democracy in Post-transition Latin America Felipe Agüero, Jeffrey Stark, 1998 Concerns about democratization in Latin America today center not on the threat of authoritarian regression but on the depth quality fairness and completeness of democratization thus far Large scale economic and social reforms stronger and more complex civil societies and processes of integration and globalization call for new approaches in order to understand the unfolding of democracy in the region In this context the contributors to this volume explore the often disjunctive aspects of Latin American democracy providing a nuanced understanding of contemporary democratic governance *Constructing Democratic Governance* Jorge I. Domínguez, Abraham F. Lowenthal, 1996-10 In *Constructing Democratic Governance* Jorge I Dom nguez and Abraham F Lowenthal bring together a distinguished group of scholars to assess how well democracy has been working in Latin America and the Caribbean in the 1990s The authors find that serious problems still plague these new democracies Although free and competitive elections are no longer noteworthy events in the region progress continues to lag behind the industrialized world in such key areas as establishing civilian control over armed forces protecting human rights strengthening the role of legislatures and judiciaries improving the performance of political parties and redressing social inequalities *Constructing Democratic Governance* suggests strategies to address these and other crises points to positive developments carried out in several countries and proposes alternative approaches for analysts and policy makers to understand and explain the process of democratization throughout the region *Crafting Democracy* Caroline Boussard, 2003 New York University Journal of International Law & Politics New York University.
