## **Consultation With The Back Doctor:**

A Consultation With the Back Doctor Hamilton Hall, 2011-02-11 The latest advice from the original bestselling Back Doctor Twenty five years ago Dr Hamilton Hall wrote the book that changed the way back pain sufferers deal with their affliction In The Back Doctor he advocated activity instead of bed rest In place of braces and girdles he suggested that patients follow a program of specific exercise Most of all he took the mystery out of back pain Three out of four Canadian adults and an increasing number of children suffer some form of back discomfort They make up a huge and lucrative market for unscrupulous practitioners New treatments new drugs new devices and supposedly new high tech therapies are advertised daily New controversies such as a recent scare about chiropractic neck manipulation find their way into newspaper headlines A Consultation with the Back Doctor is Dr Hall s response to these and other developments This is a completely new book It is written like its predecessors in an informal easy to understand question and answer format Readers will come away with a sound understanding of their condition and a practical course of action to make it better

Worrall, Adrian French, Les Ashton, 2018-04-19 What distinguishes the consulting of experienced family doctors from their newly qualified colleagues The question is often frustratingly hard answer clearly or objectively unlike many professions family doctors face a dearth of clear expectations of what constitutes advanced practice a lack of defined standards against which to evaluate it and an absence of expertise related professional training in which to develop it post certification The

model of consultation excellence outlined in this book illustrates in practical terms how advanced consulting can be nurtured. It avoids tantalising value judgement such as excellence. Instead it describes behaviours in terms that can be observed day to day providing a detailed picture of what constitutes advanced consulting behaviour how family doctors can be helped to acquire these higher levels of expertise and how changes in behaviour can be identified and evaluated. Advanced Consulting in Family Medicine is written in handbook form for easy access and use and provides a vital vision of higher order family doctor consulting.

*Dynamic Consultations with Psychiatrists* Jason Maratos, 2022-07-05. Unique resource detailing the day to day activity of doctors who work on the coal face of psychiatry in an acute setting. *Dynamic Consultations With Psychiatrists* is the outcome of a collaboration between the psychiatrists of a certain hospital and the author which has continued successfully for more than ten years containing a number of patient consultations and cases where psychiatry was used successfully to solve a patient's problem. The presentation of each case and particularly of the consultation is meant to demonstrate the process by which insights were gained. Each consultation is written in plain English with the deliberate avoidance of terminology and especially psychoanalytic jargon. Naturally all identified features of the patients have been deleted or changed so that the patients' privacy is not compromised. The format is near to a transcript so that the work demonstrates how the understanding evolves and emerges from the process. The structure of the book is not according to a diagnosis but according to presenting problem in other words the most prominent feature allowing for easy and efficient accessibility. Sample concepts and learning resources covered and included in *Dynamic Consultations With Psychiatrists* are as follows: How a doctor is faced with a patient who is suffering in their own particular way and how the clinician gets to develop a deeper understanding of their predicament. Difficulties the coal face doctors encounter and the challenges they will face in their personal emotional wellbeing. Relationships with the other professionals both within their hospital and other agencies. Curtailed histories so that there is a seamless exposition of how the conclusions of the consultation have been reached. Psychiatrists, psychotherapists and students/instructors in related programs of study can use *Dynamic Consultations With Psychiatrists* to gain valuable insight into the thought process of practicing psychiatrists in relation to a myriad of patient problems allowing them to learn vicariously and become better at dealing with their own patients' problems.
