Consuming Passions The Anthropology Of E:

Andean Foodways John E. Staller, 2020-12-01 There is widespread acknowledgement among anthropologists archaeologists ethnobotanists as well as researchers in related disciplines that specific foods and cuisines are linked very strongly to the formation and maintenance of cultural identity and ethnicity Strong associations of foodways with culture are particularly characteristic of South American Andean cultures Food and drink convey complex social and cultural meanings that can provide insights into regional interactions social complexity cultural hybridization and ethnogenesis This edited volume presents novel and creative anthropological archaeological historical and iconographic research on Andean food and culture from diverse temporal periods and spatial settings The breadth and scope of the contributions provides original insights into a diversity of topics such as the role of food in Andean political economies the transformation of foodways and cuisines through time and ancient iconographic representations of plants and animals that were used as food Thus this volume is distinguished from most of the published literature in that specific foods cuisines and culinary practices are the primary subject matter through which aspects of Andean culture are interpreted

Consuming Passions and Patterns of Consumption Preston T. Miracle, Nicki Milner, Nicky Milner, 2002 This volume outlines and illustrates the importance of considering social contexts of food consumption in interpretations of past and present human societies giving a new twist to the old adage You are what you eat What we eat how we eat are and always have been fundamental to the structuring of social life both in the past and in the present The remains of food are also among the most common archaeological finds The papers in this volume explore and develop ways of using food to write social history they move beyond taphonomic and economic properties of subsistence resources to examine the social background and cultural contexts of food preparation and consumption Contributions break new ground in method and interpretation in case studies spanning the Palaeolithic to the Present and from the Amazon to the Arctic This volume will thus be essential reading for all archaeologists anthropologists and social historians interested in the prehistory and history of food consumption
