Contemplating Suicide The Language Of Ethics And Self Harm:

Contemplating Suicide Gavin Fairbairn, 1995 Fairbairn takes a fresh look at suicidal self harm and reaches many novel conclusions about the current language and ethics of suicide and contributing greatly to the development of understanding in this sensitive area *Contemplating Suicide* Gavin J. Fairbairn, 1995 **Working With Self Harm and Suicidal**

Behaviour Louise Doyle, Brian Keogh, Jean Morrissey, 2015-03-04 Suicide and self harm are world wide public health issues that can have devastating effects on families friends and communities They are both a priority for anyone working in mental health social work emergency departments and related fields however suicidal and self harming behaviour can take place anywhere anytime it may be a pupil in a school an inmate in a prison or a colleague or family member For this reason this book has been written in a clear accessible and practical style for anyone who wants to learn more about working with and preventing suicidal and self harming behaviour It identifies common risk and protective factors as well as specific warning signs of imminent suicidal behaviour It provides essential communication skills for undertaking a risk assessment illustrating how each skill can be used in real life practice It looks specifically at the issue of self harm and suicide in prisons schools and emergency departments It lays out clear strategies for identifying and addressing issues of self care when working with people who are suicidal or who self harm It identifies how we can assist those who are bereaved following the death of a loved one by suicide Packed with learning outcomes case scenarios and reflective questions this book acts as a toolkit for anyone working in this difficult field **Discursive Constructions of the Suicidal Process** Dariusz Galasinski, Justyna Ziolkowska, 2020-07-09 What is suicide When does suicide start and when does it end Who is involved Examining narratives of suicide through a discourse analytic framework Discursive Constructions of the Suicidal Process demonstrates how linguistic theories and methodologies can help answer these questions and cast light upon what suicide involves and means both for those who commit an act and their loved ones Engaging in close analysis of suicide letters written before the act and post hoc narratives from after the event this book is the first qualitative study to view suicide not as a single event outside time but as a time extended process Exploring how suicide is experienced and narrated from two temporal perspectives Dariusz Galasinski and Justyna Ziolkowska introduce discourse analysis to the field of suicidology Arguing that studying suicide narratives and the reality they represent can add significantly to our understanding of the process and in particular its experiences and meanings Discursive Constructions of the Suicidal Process demonstrates the value of discourse analytic insights in informing enriching and contextualising our knowledge of suicide *Investigating Adolescent Health*

Communication Kevin Harvey, 2014-02-24 A comprehensive corpus analysis of adolescent health communication is long overdue and this book provides it We know comparatively little about the language adolescents use to articulate their health concerns and discourse analysis of their choices can shed light on their attitudes towards and beliefs about health and illness This book interrogates a two million word corpus of messages posted by adolescents to an online health forum It adopts a

mixed method corpus approach to health communication combining both quantitative and qualitative techniques Analysis in this way gives voice to an age group whose subjective experiences of illness have often been marginalized or simply overlooked in favour of the concerns of older populations
