Legal and Ethical Considerations for Public Relations

Karla K. Gower, 2017-12-08 Public relations frequently reflects the conscience of an organization. Public relations professionals must ask the right questions when advising organizations on the best ways to protect themselves from damage or liability. A better understanding of ethics helps formulate those questions and educate management on the ethical consequences of corporate action. Karla Gower has updated *Legal and Ethical Considerations for Public Relations* to reflect recent case law and the prevalence of social media in our lives and in public relations practice. She considers ethical standards, the development of First Amendment law, corporate and commercial speech, lobbying, protecting creative property, and other specific areas of the law. In addition, Gower highlights important cases and breaks down how their decisions have impacted current law. Readers will learn to collaboratively resolve corporate crises not just in the classroom but throughout their professional careers.

Business and Human Rights

Wesley Cragg, 2012-01-01 The relationship between business and human rights has emerged in the last two decades as one of the most pressing issues in the field of business ethics. Do corporations have human rights responsibilities? If so, what is that nature of those responsibilities and do they differ in any significant way from those of governments? Is it reasonable or realistic to expect corporations to respect human rights in environments where governments, particularly in the developing and underdeveloped world, need economic development and have a limited capacity and/or interest in enforcing human rights standards and laws? The contributors to this groundbreaking volume take up these questions, examining them from both theoretical and practical perspectives. Topics discussed include the debates leading to the creation of the ISO 26000 standard and the United Nations human rights framework for business entities, as well as the nature and limits of the human rights responsibilities of business, the roles and responsibilities of international trade bodies like the World Trade Organization in protecting human rights, and the implications of the current debate for international trade agreements and trade with China. The contributors also explore the effectiveness of voluntary human rights standards in the textile and clothing trade, mining, advertising, and the pharmaceutical industry. Scholars and students in management, philosophy, political science, sociology, and law will find this volume a great resource, as will activists, managers, and policy makers.

Modern Business Law Edward Whiton Spencer, 1920

The Arts and the Legal Academy Zenon Bankowski, Maksymilian Del Mar, Paul Maharg, 2016-04-01 In Western culture, law is dominated by textual representation. Lawyers, academics, and law students live and work in a textual world where the written word is law and law is interpreted largely within written and printed discourse. Is it possible, however, to understand and learn law differently? Could modes of knowing, feeling, memory, and expectation commonly present in the Arts enable a deeper understanding of law's discourse and practice? If so, how might that work for students, lawyers, and academics in the

classroom and in continuing professional development Bringing together scholars legal practitioners internationally from the fields of legal education legal theory theatre architecture visual and movement arts this book is evidence of how the Arts can powerfully revitalize the theory and practice of legal education Through discussion of theory and practice in the humanities and Arts linked to practical examples of radical interventions the chapters reveal how the Arts can transform educational practice and our view of its place in legal practice Available in enhanced electronic format the book complements *The Moral Imagination and the Legal Life* also published by Ashgate
