Huang, 2025-01-13 Accessible thorough guide to merging data analysis and AI with new talent strategies The Inclusion Equation is a comprehensive one of a kind guide to merging DEI and employee wellbeing concepts with data analytics and AI In this book renowned thought leader and professional keynote speaker Dr Serena Huang explains exactly how to quantify the effectiveness of new talent strategies by connecting them to a firm ROI estimate enabling readers to approach and win the favor of higher ups in any organization with the same effectiveness that marketing and financial departments do This book is written in a style that is appealing and accessible to all readers regardless of technical background but with enough depth to provide real insight and strategies Dr Serena H Huang distills her 10 years of Fortune 500 people analytics leadership experience into tools and framework you can leverage to measure and improve DEI and wellbeing in your workplace Some of the topics explored in this book include Attract and retain top talent including Gen Z and Millennials with tailored DEI and wellbeing strategies Quantifying not only a talent strategy s perceived initial effect on an organization but also its improvement and expansion over time Turning DEI and wellbeing from illusive corporate concepts to quantifiable metrics Harness the power of AI to create synchronized DEI and wellbeing strategies that maximize ROI Getting serious attention from your CEO and CFO by quantifying HR initiatives Using data storytelling to demonstrate the business impact of DEI and wellbeing Preparing for the future by understanding the role of AI in creating an inclusive and healthy workplace The Inclusion Equation is a complete guide for DEI and wellbeing covering getting started in measurement to using storytelling to influence leadership This is the contemporary playbook for any organization intending to substantially improve their diversity equity inclusion and employee wellbeing by leveraging data AI This book is also perfect for any data analytics professionals who want to understand how to apply analytics to issues that keep their CEOs up at night Whether you are a data expert or data novice as long as you are serious about improving DEI and wellbeing this book is for you *Innovation Sucks!* Alan Watkins, Simon May, 2021-03-14 Businesses spend billions on innovation with very little to show for their investment or effort This book challenges some of the ingrained truths of innovation and suggests a different approach Innovation is not the creation of a novel idea It is the successful commercialisation of that novel idea Rather than starting with a costly time consuming problem assessment that seeks to push potential solutions through an innovation funnel an

impeller approach starts with possible solutions and gets the market to pull the best ones forward so they can fail fast or flourish fast This approach is made possible by the addition of a bee a new type of integrative thinker who can harvest the existing knowledge from the meadow of experts Completely reversing the innovation process means organisations are much better placed to win in the market rather than focusing on finding theoretical solutions or clearing innovation stage gates In addition this approach also recognises that the people who shepherd the solution through the ideation and testing stage are not the same people who must then take that solution to market for successful commercialisation Given the current innovation failure rate coupled with the fact that society is beset with multiple wicked problems it s time to think differently and innovate innovation itself This book is essential reading for Heads of Innovation and Commercialisation Directors of Marketing Heads of New Product Development and New Service Development Strategy Directors Chief Technology Officers Government advisers and policy makers *Multidisciplinary Research Area in Arts, Science & Commerce (Volume-5)* Chief Editor- Biplab Auddya, Editor- Dr. Rinki Mishra, Dr. Rajeshwari Ullagaddi, Dr. Ruma Bhadauria, Dr. Aakriti Rath, Dr. N.V.
