The Power of Logos William L. Haig, Laurel Harper, 1997-05-14 This book brings together both design and marketing expertise to explain how to create a truly effective company logo. It demonstrates and explains how to integrate concepts such as credibility, familiarity, and the essential spirit of a business into a logo design. Written for both the designer and the company manager, it defines the meaning of credibility and then demonstrates the kinds of qualities that convey credibility in a company logo. You need this book if you are: A designer attempting to understand marketing and business concepts; how to translate credibility into design; the defining qualities of a business; what a client is saying; the many applications of a logo. A manager attempting to understand how to approach the task of creating a logo; the designer's perspective; what message a company logo should convey; how design can be used to symbolize expertise; how to communicate clearly with a designer.
