How To Take Good Notes Angelos Georgakis, 2017-06-25 Why would I need a book on how to take notes Notes are just notes FALSE Scientists have found that note taking can be as mentally demanding as playing chess can be for an expert While you take notes you listen carefully to the lecturer you process the new material you organize it in your working memory and you finally write down what you think is most

important All this happens while someone is talking at an average speed of three words per second and someone is writing down at an average speed of one third of a word per second It doesn't sound easy now does it Notes are an important tool for learning We don't take notes just to record a few facts so we can review them later Learning happens as we take notes Taking notes the right way leads to good study practices better performance on exams and long term retention of information Note taking comes naturally FALSE Note taking is not obvious or intuitive Research has shown that students fail to capture 40% of the main points in a typical lecture First year students capture only 11% In some studies even the best note takers seem to record less than 75% of the important information People think they take good notes until they're told they don't Few of us have consciously thought about how we take notes let alone how to improve the quality of them We often reproduce the lecturer's phrases verbatim We don't save time by systematic use of abbreviations We fail to become a good psychologist of our lecturer We fail to pick up his enthusiasm We fail to interpret the tone of his voice We fail to read his body language And the result is that we fail to take good notes Anyway no one taught me how to take notes in school or in college TRUE Educators believe that students are able to assess the quality of their notes and follow good practices However studies have shown the exact opposite The fact that there isn't a course in college dedicated to the art of taking notes or learning in general makes students believe that this is a natural skill that they can perfect with practice over the course of their studies At the end of the day everyone has their own way to take notes TRUE In this book you may be surprised to learn that I don't make any references to different types of note taking systems like those that other books do The reason is that it's the practices behind the note taking that matter most For example you should not copy the lecturer's phrases word for word but generate the main points in your own words And you should leave space on your notes for adding comments and testing yourself later I encourage students to use the Cornell note taking system because it utilizes most of the principles of effective note taking No matter which note taking system you decide to follow the cognitive effort you will have to expend is equally high Note taking may not be rocket science but it's definitely science cognitive science And cognitive science has produced a lot of useful insights that we can use now to take better notes This book presents these insights in simple words so you can make the most of your notes and use them to study effectively The title of this book is How to take good notes However note taking is just one part of the picture Note taking is much broader in the context of this book We take notes so we can interact with them later What matters most is what we do with our notes after we finish taking them Notes can do so many good things for you They hold all your learning efforts Treat them well Look after them **Evernote**, 2015 Are you struggling to keep track of everything Tired of always forgetting important ideas or reminders Did you know that much of our stress comes not from having too much to do but from trying to keep track of it all With a constant and ever growing to do list it's no wonder things are getting forgotten misplaced or even just a bit overwhelming Well now there is a solution to all of your problems Evernote app Evernote What Is It In one sentence it's the easiest way to organize your life through technology

adding important reminders on specific dates

Color Coding Your Notes

Color coding is a standout feature of ColorNote. It helps you visually categorize your notes for easier access and organization. You can assign a color to each note, giving you the ability to instantly identify the type or importance of a note.

Using Folders

Keep your notes even more organized by creating folders. Group your notes by themes, projects, or categories like work, personal, shopping, or reminders.

Chapter 4: Advanced Features of ColorNote

In this chapter, we'll explore some of the advanced features of ColorNote that help users get the most out of the app.

Password Protection

For sensitive information, you can set up a password to lock specific notes or the entire app. This ensures that your private notes stay secure.

Syncing Notes Across Devices

If you use multiple devices, ColorNote allows you to sync your notes across all of them. This is particularly useful for those who want to access their notes on both their phone and tablet.

Backup and Restore

Never worry about losing your notes. You can back up your notes to the cloud and restore them at any time. This feature ensures that your important information is always safe.

Widgets for Quick Access

ColorNote supports widgets which allow you to quickly view and add notes right from your home screen. This feature makes it easy to access your notes without having to open the app.

Chapter 5: Using ColorNote for Specific Purposes

ColorNote is a versatile app that can be used for many different purposes. Here are some ways you can use ColorNote to stay organized.

To Do Lists and Task Management

Use the checklist feature to create to-do lists and track your tasks. You can set up reminders, prioritize tasks, and check off items as you complete them.

Journaling and Personal Notes

Whether you want to write down daily thoughts or create a personal diary, ColorNote's text notes are perfect for journaling. The app allows you to quickly write and save your thoughts for reflection later.

Study and Research Notes

Students and researchers will love how easy it is to take organized notes. Create text notes for lectures and research and use the color coding feature to separate different subjects or topics.

Meal Planning and Grocery Lists

Create meal plans and shopping lists with the checklist feature. You can also organize your notes by categories like grocery, recipes, and meal prep.

Event and Appointment Scheduling

Use ColorNote's calendar feature to plan out your appointments, events, or deadlines. You can add a note for each event with more details or to-do lists for preparation.

Chapter 6: Troubleshooting and Tips

Here are some common problems users face and how to solve them.

Syncing Issues

If your notes are not syncing between devices, check your internet connection and ensure you are logged into the same ColorNote account on all devices. You can also manually sync the app from the settings.

Backup Problems

If you've backed up your notes but can't restore them, ensure you're using the correct account. Check for any recent app updates or server issues that might prevent backups from being restored.

Lost Notes

If you accidentally delete a note, ColorNote provides an option to recover it from the Trash section within the app.

App Crashes

If the app crashes or behaves unpredictably, try restarting your phone or reinstalling ColorNote. Make sure the app is up to date by checking the Play Store for any available updates.

Chapter 7: Maximizing Productivity with ColorNote

ColorNote is more than just a note-taking app; it's a productivity tool. Here are some strategies to help you get the most out of it.
