It's what you offer when you offer and how you offer it to make as much money as you can as fast as you can. Ideally to make enough money from one customer to get and service at least two more customers in less than thirty days. And it rarely looks clean, but I break AI Money Models into three stages. Stage I: Get Cash. AI Attraction Strategies get more customers for less through YouTube channel optimization, automated social media content creation, compelling ebook generation. Stage II: Get More Cash. AI Upsell/Downsell Strategies make more money from them faster through engaging online course design, optimized Upwork/Fiverr service offerings. Stage III: Get The Most Cash. AI Continuity Strategies maximize their total money spent through automated email marketing systems, AI-powered customer relationship management. In real life, it happens like this: First, I get customers reliably with AI from YouTube, Amazon, Udemy. Then I make sure they pay for themselves reliably with AI from course sales or service delivery. Then I make sure they pay for other customers reliably with AI through automated marketing. Then I start maximizing each customer's long-term value with AI optimization. Then I spend as many advertising dollars as I can to print as much money as possible, backed by AI analytics. This is my cookbook for making money by leveraging AI synergy in the online world. It took me over a decade to learn all these tactics. It'll take you three hours. Use responsibly. Enjoy. If you want to learn more and make more money for your online business, then ADD TO CART, use its contents, and see for yourself.
