Drawing together international experts and interdisciplinary perspectives including culture, psychology, education, sociology, health, social work, or neuroscience, this ground-breaking book introduces a new concept of Wellbeing Arts, offering fresh insights and practical strategies for using creative expression to enhance wellbeing. Through an exploration of cutting-edge science, this volume explores how engaging with the arts and everyday aesthetics can cultivate strengths, foster positive emotions, promote meaningful relationships, facilitate engagement and achievement, help individuals to find meaning and purpose, and act as a transformative force. The first section provides the foundation for wellbeing arts and the integration of arts, everyday aesthetics, and positive psychology. The second section demystifies the idea that the arts are reserved for an elite and makes the case that the arts are for everyone. Section 3 presents a series of possibilities for integrating arts, everyday aesthetics, and positive psychology using various art forms and descriptions of successful programmes in different contexts. Finally, section 4 presents a series of chapters describing arts and wellbeing policies and projects.
