Why You Should Try Ai Slideshow Maker 2025:

Designing Instruction with Generative AI Brent A. Anders, 2025-09-16 *Designing Instruction with Generative AI* offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences While instructional designers are a tremendous asset to higher education not all colleges or universities have the robust staff needed to support all instructors on staff or large student populations Drawing on a wealth of research professional experience and strategic insights this book equips new and seasoned teaching faculty and trainers with step by step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and instruction process and cater to the needs of diverse learners Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials course design and learning environments while supporting their digital literacies Rather than introduce AI as a means of outsourcing subject area expertise critical thinking or cognitive processes the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices From optimizing course alignment and accessibility practices to fostering active learning motivation and engagement educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

AI at Your Service Alessandro Totaro, 2025-09-01 *AI at Your Service* Transform Study Work and Creativity with the Right Tools is the practical guide that takes you step by step into the world of artificial intelligence applied to everyday life After discovering in the first volume of the Living with AI series how artificial intelligence is already transforming our present this second book takes you to the level of action not just theory but concrete tools you can start using right away In these pages you ll learn how to leverage ChatGPT and other language models to write better and faster how to create professional images and videos with just a few commands how to organize work and study with productivity apps how to build automations that simplify your day and how to integrate different tools into winning workflows With clear and direct language practical examples and a motivational approach this book doesn't just show you what AI can do it teaches you how to choose and use it consciously to increase productivity creativity and personal freedom Whether you're a student professional creative or simply curious you ll find immediate and applicable strategies that will allow you to transform AI from an abstract concept into a true daily ally

Random Acts of Automation Craig Le Clair, 2025-01-28 As the automation tsunami crashes over the workforce forget fearmongering headlines and confusing jargon This book will be your life raft through the chaos leading you to shore *Random Acts of Automation* dives deep into the hidden consequences of our rapid automation examining the forces that will reshape the current workforce This book focuses on real people fast food workers warehouse staff customer service agents even lawyers and tech professionals all facing the impact of automation These pages offer practical solutions to your workplace

concerns about AI This isn't just about understanding your current job it's about seeing where automation will take you and how you can thrive Author and AI analyst Craig Le Clair isn't waiting for politicians to catch up on the latest advancements in automation Instead this is your guide to tackle the coming changes head on filled with relatable stories actionable advice and a clear path forward

Radical Reporting Sara I. James, 2025-01-31 If I were giving out an award for book of the year for internal audit professionals I would certainly award it to her outstanding manuscript *Radical Reporting Writing Better Audit Risk Compliance and Information Security Reports* Richard Chambers Former President and CEO The Institute of Internal Auditors Most people dread writing reports they also dread reading reports What they don't realize is that the techniques that make writing more readable make it more powerful This is especially relevant for professionals in areas such as audit risk compliance and information security This small volume provides the tools and techniques needed to improve reports It does so through addressing crucial concepts all too often overlooked in the familiar rush to perform tasks complete projects and meet deadlines These concepts the role of culture in communication the link between logic and language the importance of organizing thoughts before writing and how to achieve clarity may seem academic or theoretical They're not Unless writers understand their own thoughts actions and objectives they cannot hope to communicate them at all let alone clearly This second edition develops these points with additional material on critical thinking as well as the use of AI in reporting
