**Benefits of Influencer Marketing in Tourism** Alina Fackler, 2018-04-17

Seminar paper from the year 2018 in the subject Business economics

Offline Marketing and Online Marketing grade 2 0

University of Applied Sciences Deggendorf language English

abstract

Nowadays it is a decisive role for the image of a company to be represented on social media because it is one of the most important type of media in today s time

The influence of traditional media is declining sharply

Companies thus loose the opportunity to reach their target groups via these older communication channels

At the same time almost 80% of adults are online and are spending daily 166 minutes on average in the web

Consumers look at other consumers to inform themselves about products and services

This is why a new segment of Marketing has developed so called Influencer Marketing

It is a trend topic and many companies deal already with it

Many tourism companies agree that Marketing of their offers is mostly online

But customers do not exclusively inform themselves online

Word of mouth from family and friends are still worth a lot

Consequently the tourism companies cannot compete with personal relations

Nevertheless there is an opportunity to work with bloggers and thus imitate the personal recommendation

Most tourism experts are already actively using social media and look above all opportunities for stronger customer loyalty direct contact with customers but also for addressing new target groups

The aim of the present work is to define Influencer Marketing and to work out the benefits for the tourism industry
