Pedagogical Psychology: Beyond the 21st Century Gretchen M. Reeve, Stanley N. Bursten, 2015-07-22 Frontiers in Psychology is introducing a new research topic Pedagogical Psychology Beyond the 21st Century which will be released as an online journal issue in summer 2014 The purpose of Beyond the 21st Century will be to publish goal oriented articles leading to improvement of teaching and learning at all levels of psychology education Until perhaps 20 years ago educational approaches to teaching were largely informed by a Stand and Deliver pedagogical attitude The psychology of this approach has often invested unrealistic and unrealizable responsibilities in both teachers and students With the emergence of electronic data sharing e.g. the Internet and global cooperation competition newer approaches to teaching have begun to supplement and sometimes replace the older model of teaching These newer approaches have simultaneously taken advantage of technological advances global changes and an evolving understanding of successful student mentor relationships As the pedagogical models driven by these changes evolve into the 22nd century and beyond what seems groundbreaking today will in hindsight be seen as hidebound Thus the major goal of Beyond the 21st Century will be to publish manuscripts which imaginatively but realistically anticipate future trends in teaching undergraduate psychology Types of manuscripts which are appropriate for Pedagogical Psychology should be visionary yet empirically and/or theoretically based We welcome manuscripts in all domains of pedagogical psychology with a special interest on topics that are new or expected to evolve rapidly Such innovative topics include but are not limited to Online and hybrid teaching Massive Open Online Courses MOOCs How has student success improved with the introduction of online distance education Are there dangers associated with online distance education especially MOOCs How can student success be improved as technology evolves beyond the MOOC concept What technological advances will make psychology education available and useful for more and more diverse students How can the physical classroom be transformed into a

student centered effective virtual environment Using the internet as resources for classes e g stat tutorials etc Uses of technology such as social media e g Facebook Twitter wikis and clickers in the classroom The challenge of teaching particular courses online such as psychology laboratory courses or practicums Seeking effective user feedback i e regarding user friendliness teaching effectiveness for online courses including MOOCs The Wikipedia initiative of the Association for Psychological Science Teaching Generation Me anticipating changing generational needs Teaching international students Teaching non traditional age students Undergraduate research projects Integrating multiculturalism into all courses Infusing social justice issues into psychology courses Creating opportunities for interdisciplinary learning Teaching techniques for psychology courses which are often offered as electives rather than core curriculum e g evolutionary psychology psychology and the law cross cultural psychology health psychology positive psychology Assessing institutional student learning objectives across the curriculum Contingent faculty adjunct faculty lecturers in psychology departments Working with changing legislative accreditation constraints and unpredictable budgets Co Hosts of Pedagogy

Designing Effective Distance and Blended Learning Environments in K-12 Driscoll III, Thomas F.,2021-11-12 It has quickly become apparent in the past year that online learning is not only an asset but it is critical to the continued education of youth during times of crisis However districts and schools across the nation are in need of guidance and practical research backed approaches to distance and hybrid learning The current COVID 19 crisis has demonstrated that effective learning in K 12 is possible but many districts struggled and continue to struggle in achieving that reality There is also the growing consensus that even if things return to normal distance and blended learning strategies should continue to be employed in many ways across the K 12 environment Designing Effective Distance and Blended Learning Environments in K 12 provides key insights into the ways that school districts and educators from across the world have effectively designed and implemented distance and blended learning approaches to enable and enhance student learning The diverse collection of authors from various demographics and roles in school systems will benefit readers across a wide spectrum of school community stakeholders There will also be an emphasis on how research and theory is put into practice along with an honest discussion of what strategies and actions were successful as well as those that were less so This book is essential for professionals and researchers working in the field of K 12 education particularly superintendents curriculum developers professional learning designers school principals instructional technology specialists and teachers as well as administrators researchers academicians and students interested in the effective practices being used in blended learning approaches

Agency, Change and Learning Julian Randall, Bernard

Burnes, 2023-12-05 Despite the plethora of books on change there appears a notable gap in the field rarely is the authentic and candid voice of change agents heard How often do academics or practitioners candidly state what they actually do when they are faced with managing change in their own organisations or when they are called on in a consultancy capacity In this new book the editors bring together a diverse group of contributors who have worked as Internal Change Agents in organizations to divulge what they really do and think about change The authors draw on their own research work involving change agents and their change interventions and include current reflections on the post Covid world of work and the change required for achieving change interventions successfully Each contribution offers perspectives from real change programmes

in both the public and private sector offering a unique opportunity to move beyond theory and understand change in practice The book offers valuable insights for academics and students of organisational change and behaviour leadership and organisational development *Emerging issues related to the corona virus pandemic (COVID 19)* Seven editora,
