Emmanuel Jimenez, World Bank, 2006 Developing countries which invest in better education healthcare and job training for their young people between the ages of 12 and 24 years of age could produce economic growth and sharply reduced poverty With 1 3 billion young people now living in the developing world the largest ever youth group in history the report says there has never been a better time to invest in youth because they are healthier and better educated than previous generations and they will join the workforce with fewer dependents because of changing demographics The report says that young people make up nearly half of the ranks of the world s unemployed and as for example in the Middle East and North Africa region must create 100 million jobs by 2020 in order to stabilize its employment situation Moreover surveys of young people in East Asia and Eastern Europe and Central Asia carried out as research for the report indicate that access to jobs along with physical security is their biggest concern Far too many young people some 130 million 15 24 year olds cannot read or write Secondary education and skill acquisition make sense only if primary schooling has been successful This is still far from being the case and efforts have to be reinforced in this area In addition more than 20 percent of firms in countries such as Algeria Bangladesh Brazil China Estonia and Zambia rate poor education and work skills among their workforce Overcoming this handicap starts with more and better investments in youth The report highlights three areas to promote better

investment in the future expanding opportunities enhancing capabilities and providing second chances Expanding opportunities focuses on increasing the quality of education smoothing the transition to work and providing young people with a platform for civic engagement Enhancing capabilities involves making young people aware of the consequences of their actions especially consequences that will affect them much later in life as well as building their decision making skills and giving them the right incentives Providing second chances calls for helping young people recover from missed opportunities through remedial education retraining treatment and rehabilitation [Top 300 Careers](#) ,2008 Explore hundreds of careers assess your best career fit and land a job fast with this extensive authoritative resource In one time saving volume job seekers and students find everything they need to research careers learn about pay outlook education and skills needed for about 300 jobs match their personal skills to the jobs and take seven steps to land a good job in less time This book provides thorough current and interesting descriptions for all major jobs covering about 90 percent of the workforce A special book within a book section by career and job search author Michael Farr describes the seven steps that cut job search time in half and includes sample resumes An assessment matches your personal skills with the characteristics of the occupations described in the book **F & S Index United States Annual** ,2007 [BIG BOOK OF JOBS, 2009-2010](#) McGraw-Hill Editors,2008-09-23 Comprehensive up to the minute information on top jobs and job search techniques from the United States Department of Labor With up to the minute data from the U S Department of Labor plus cutting edge career strategies from McGraw Hill The Big Book of Jobs saves you precious time by offering everything you need for job hunting in a single volume From building career management skills and writing resumes to exploring 250 career possibilities this resource arms you with the tools to effectively pound the pavement **Bulletin to Management** ,2007 **CIO.** ,2008-04 **The House Magazine** ,2009 *Essential Introduction to Computers* Gary B.
