MEENAMBIGAI,SIDDAM SIVA GANGA YESHWANTH, , *Edutech Enabled Teaching* Manpreet Singh Manna,Balamurugan Balusamy,Kiran Sood,Naveen Chilamkurti,Ignisha Rajathi George,2022-09-02 The primary goal of this book is to address the issues faced by teachers in the adoption of digital tools into their teaching and their students learning This book also addresses the issues confronting educators in the integration of digital technologies into their teaching and their students learning Such issues include a skepticism of the added value of technology to educational learning outcomes the perception of the requirement to keep up with the fast pace of technological innovation a lack of knowledge of affordable educational digital tools and a lack of understanding of pedagogical strategies to embrace

digital technologies in their teaching This book presents theoretical perspectives of learning and teaching today s digital students with technology and proposes a pragmatic and sustainable framework for teachers professional learning to embed digital technologies into their repertoire of teaching strategies in a systematic coherent and comfortable manner so that technology integration becomes an almost effortless pedagogy in their day to day teaching Some of the objectives are given below Shares valuable insights into the influence of technology on teaching and learning in higher education Provides deeper insights on higher education and sustainability interact Studies innovations from various perspectives Investigates how the educators and students apply the unique innovative and emotional dimensions in modern age of learning Provides a timely overview of changes in education reforms and policy research globally Evaluates the problematic relationship between globalization the state and education reforms *Universities and Regions* Michael Shattock,Aniko Horvath,2023-04-06 This book explores the impact of localities and regions on universities and shows how the diversity of the higher education landscape is critically affected by the geophysical character of regions and their differentiated economies and cultures regional inequalities bear heavily on universities strategy making A study of the interrelationship between higher and further education argues that from a regional perspective a change to a tertiary education system in England following Wales would create the conditions for better local and regional coordination Universities make a significant contribution to levelling up through technology transfer and the creation of innovation hubs but the contribution of locally or regionally based students who on graduation return to disadvantaged communities rather than seek employment elsewhere should be recognised also as a longer term step to redressing regional inequality The book argues strongly that the time has come to decentralise the governance of a re aligned tertiary system to regions and identifies the move to create metro mayors and combined authorities as providing the appropriate vehicle to release new initiative from regional sources It cites the success of decentralisation to Scotland and Wales as offering relevant models for scrutiny The authors draw on 12 UK widely differentiated university case studies a survey of further education and a study of three continental European comparators Germany Ireland and Norway to develop the argument *Sessional Papers* Great Britain.
