Current development on the job market* Mohamed Abdelhady,2021-02-08 Master s Thesis from the year 2020 in the subject Sociology Work Education Organisation grade 1 3 University of Applied Sciences Fulda language English abstract This research paper is a journey into the digital nomads world in Dahab Egypt and aims to reveal their imaginations

and ideologies identify their attributes and analyze their community's enhancement to their professional improvement. Data were gathered during a three-month field study relying on an online survey including a questionnaire, six interviews, and a netnography research method. In a world where technology is increasingly intertwined with everyday life and work, the traditional profession is fading into the background while the digital age is unleashing unlimited opportunities and changes in our working, playing, and living ways. Thus, more people adopt the digital nomad lifestyle to reach their personal and professional goals, heading to various innovation hubs worldwide, especially in Asia. Consequently, it has led to increased digital nomadism. Phenomenon studies, however, none of them addressed the phenomena in the Middle Eastern countries as innovation hubs. Hence, given that Egypt is one of the most capable digital nomads' host countries in the Middle East with excellent weather and fascinating history, a reasonable cost of living, and developed sharing economy sectors, especially Dahab city, it is worthy of examining the phenomenon in Dahab, Egypt, and tracking its existence.

Suitcase Office Koen Blanquart, 2022-01-15. Not that long ago, working from home (WFH) was a reward, a way to find a better work-life balance. But then came COVID-19, WFH became the norm, and for many, the very thing that gets in the way of that balanced life. Should we all return to the office? Specialists agree that tomorrow's workplace will be location-independent and even transnational. Location-independent work offers many advantages. It is the answer to employees' demand for more autonomy, and it creates opportunities in the war on talent. It makes companies more agile and competitive by removing the constraints of office space, national borders, and traditional working hours. In Suitcase Office, digital nomad Koen Blanquart shows that people and processes get in the way of a healthy work-life balance rather than location-independent work itself. He shows managers how to set up their operations to manage agendas and projects effectively even in a transnational context. In doing so, he guides companies on the path to more flexibility, time, and satisfaction among their teams without sacrificing results.
