**Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates?** Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out

Germany's weaknesses in digital infrastructures and cybersecurity. Additionally, many German companies face a shortage of workers due to digital transformation. Another reason that causes workforce shortage is demographical change. Companies cannot operate their business correctly, increase revenue, or drive innovations to survive in a competitive market without suitable candidates. Furthermore, the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences. Therefore, companies must know them and their work preferences to fill the workforce shortage gap.

Remote working as a sub trend of the mega trend New Work has become the new standard for workers, especially since the pandemic. However, there aren't any specific regulations regarding remote work in Germany yet. In general, remote work provides workers e.g. more freedom and a better work-life balance. Nevertheless, remote work also has the downside, such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers, less productivity outside of the office, etc. For companies, offering remote work gives them complete access to the talent pools, including freelancers as external workers, reducing costs due to fewer offices being more attractive to job seekers. But on the other side, remote leadership has become a big challenge for leaders. Furthermore, companies have to deal more with cybersecurity. When everything's going remotely, companies have become an easier target of cyber attacks.

*Enhanced Occupational Outlook Handbook* Jist Works, 2008-07. Job seekers, students, and others doing in-depth career research can access information on nearly 8,000 jobs in one current, convenient book. With more job descriptions than in any other career reference, the best-selling *Enhanced Occupational Outlook Handbook* provides a practical way to obtain and use the information from the three most authoritative occupational data sources. It includes the complete text of the latest *Occupational Outlook Handbook* by the U.S. Department of Labor, plus related job descriptions from the government's latest O\*NET database and from the *Dictionary of Occupational Titles*. Readers learn about all of their career options in one resource. Now in its all-new seventh edition, the EOOH is easy to use because it's organized by clusters of related jobs, the same user-friendly structure as in the OOH. Readers doing career research and planning also learn the latest details on earnings, job growth, education, and skills required, working conditions, employment trends, and more. A new appendix organizes all the OOH jobs by personality codes so readers can easily find related job descriptions after using any career assessment based on Holland's six personality types: Realistic, Investigative, Artistic, Social, Enterprising, and Conventional.
