*The Commons and Their Speakers in English Parliaments, 1376-1523* John Smith Roskell, 1965     The Commons and their Speakers in English Parliaments 1376-1523 J. S. Roskell, 1965     Parliament and Politics in Late Medieval England John Smith Roskell, 1981-01-01     Speakers and the Speakership Paul Seaward, 2010-02-08 This volume explores the role of the Speaker and the Lord Chancellor in the Westminster Parliament before the advent of democracy setting it beside the practice at Dublin and Edinburgh over the same period and the more recent history of the role at London and Washington First in depth study since the mid 1960s of how Speakers and the Speakership have operated in Parliament in Britain Includes contribution by the former Speaker of the House of Commons Baroness Boothroyd describing her own tenure of the Speakership Covers practice at Westminster and at Dublin and Edinburgh and a comparison of Speakers at Westminster and Washington during the nineteenth and twentieth centuries Composed of papers from a conference held at the House of Commons in April 2008     Parliament and Political Pamphleteering in Fourteenth-century England Clementine Oliver, 2010 Sixty years before the advent of the printing press the first political pamphlets about parliament were circulated in the city of London These handwritten pamphlets reported on victories against the crown and point to the existence of a market of readers hungry for news of parliament     *Handbook of British Chronology* E. B. Fryde, 1996-02-23 The Handbook of British Chronology is acknowledged as the authoritative and indispensable record of all holders of major offices in England Wales Scotland and Ireland from the fifth century to the late twentieth century The third edition which first appeared in 1986 is now available from Cambridge University Press     **Proceedings, American Philosophical Society (vol. 129, No. 1, 1985)** American Philosophical Society,     **Politics, Law and Counsel in Tudor and Early Stuart England** John Guy, 2024-10-28 This book investigates the norms and values of Tudor and early Stuart politics which are considered in the contexts of law and the Reformation legal and administrative institutions and classical and legal humanism Main themes include imperial monarchy and the theory of counsel Parliament and the royal supremacy conciliar politics and organization the relationship of law and equity and the jurisdictional rivalry between the courts of common law and canon law The author argues that norms of Tudor England were sufficiently pluralist to satisfy both absolutist and constitutionalist aspirations whereas by 1628 they proved no longer effective as a mechanism for the orderly conduct of politics The clash between two conflicting sets of values was translated into a clash of ideologies     Freedom of Speech in Early Stuart England David Colclough, 2005-04-07 Attending to the importance of context and decorum this major contribution to Ideas in Context recovers a tradition of free speech that has been obscured in studies of the evolution of universal rights BOOK JACKET     Law and Government Under the Tudors Claire Cross, David Loades, J. J. Scarisbrick, 2002-05-09 This is a collection of specially commissioned research essays by scholars on the government of Tudor England designed as a tribute from a group of advanced students to their supervisor Professor Sir Geoffrey Elton to whom the volume is dedicated is internationally

celebrated and the most influential living historian of the period Each essay reflects the special interest of the author within the broader theme of Law and Government The book will be read by many who have been influenced by Professor Elton s teaching but who may not necessarily be students or historians of Tudor England     **The English Parliament in the Middle Ages** R. G. Davies,Jeffrey Howard Denton,1981     **Church, Empire, and World** John M. Headley,1997 This volume deriving from a broadly conceived interest in polity seeks to emphasize the aspirations of church or an imperial system to a more comprehensive universal order The period 1520 1640 affords notable examples in the context of renaissance and reform as the emerging territorial states or national monarchies especially Spain adopted some of the attributes traditionally associated with the Holy Roman Emperor The articles presented here focus on the thought of leading individuals who contended with the universalizing theme in some form whether as churchmen or statesmen More Luther Gattinara San Carlo Borromeo and Tommas Campanella and concludes with Europe s global expansion both in thought and deed     **American Book Publishing Record Cumulative, 1950-1977** R.R.
