 ,1986 **Master Minds at the Commonwealth's Heart** Percy Harold Epler,1909 **The British Left and India**  
 Nicholas Owen,2007-11-15 From the formation of the Indian National Congress in 1885 to the winning of independence in  
 1947 this book traces the complex and often troubled relationship between anti imperialist campaigners in Britain and in  
 India Nicholas Owen traces the efforts of British Radicals and socialists to identify forms of anti imperialism in India which  
 fitted comfortably with their existing beliefs and their sense of how authentic progressive movements were supposed to work  
 On the other side of the relationship he charts the trajectory of the Indian National Congress as it shifted from appeals  
 couched in language familiar to British progressives to the less familiar vocabulary and techniques of Mahatma Gandhi The  
 new Gandhian methods of self reliance had unwelcome implications for the work that the British supporters of Congress had  
 traditionally undertaken leading to the collapse of their main organisation and the precipitation of anti imperialist work into  
 the turbulent cross currents of left wing British politics Metropolitan anti imperialism became largely a function of other  
 commitments whether communist theosophical pacifist socialist or anti fascist Revealing the strengths and weaknesses of  
 these connections The British Left and India looks at the ultimate failure to create the durable alliance between anti  
 imperialists which the British Empire s governors had always feared Drawing on a wide range of newly available archival  
 material in Britain and India including the records of campaigning organizations political parties the British government and  
 the imperial security services this book is a powerful account of the diverse and fragmented world of British metropolitan  
 anti imperialism Eudemian Ethics Aristotle,Aeterna Press,2015-09-01 The Eudemian Ethics and the De Virtutibus et Vitiis

Stanard, 2020-04-01  
 Decolonising Europe Popular Responses to the End of Empire offers a new paradigm to understand decolonisation in Europe by showing how it was fundamentally a fluid process of fluxes and refluxes involving not only transfers of populations ideas and sociocultural practices across continents but also complex intra European dynamics at a time of political convergence following the Treaty of Rome Decolonisation was neither a process of sudden rapid changes to European cultures nor one of cultural inertia but a development marked by fluidity movement and dynamism Rather than being a static process where Europe s former metropolises and their peoples at home reacted to the end of empire out there decolonisation translated into new realities for Europe s cultures societies and politics as flows ebbs fluxes and cultural refluxes reshaped both former colonies and former metropolises The volume s contributors set out a carefully crafted panorama of decolonisation s sequels in European popular culture by means of in depth studies of specific cases and media analysing the interwoven meaning momentum memory material culture and migration patterns of the end of empire across eight major European countries The revised meaning of decolonisation that emerges will challenge scholars in several fields and the panorama of new research in the book charts paths for new investigations The question mark in the title asks not only how European cultures experienced the end of empire but also the extent to which this is still a work in progress
