Communicating With Your Patients:

Communicating with Today's Patient Joanne Desmond, Lanny R. Copeland, 2000-09-15 Drawing on the author's wealth of experience in health care communications and backed up by solid research *Communicating with Today's Patient* is filled with proven techniques and time tested strategies physicians and other clinicians can immediately put into action

Communicating with Your Patients Christine A. Hinz, 2000 Virtually all physicians know that effective communication reduces malpractice risk What may be less apparent is how it can also contribute to the practice of good medicine even in the managed care setting In this volume health care journalist Chris Hinz draws on research and real life case examples to teach physicians and others involved in direct contact with patients valuable interpersonal communication skills and techniques Hinz demonstrates through slice of life vignettes and sample dialogue how a physician's deeper understanding of patients especially in more difficult situations can help patients to understand the physician more completely [Nancy Caroline's Emergency Care in the Streets](#) American Academy of Orthopaedic Surgeons (AAOS), Nancy L. Lippincott's Textbook for Nursing Assistants Pamela J. Carter, 2007-06-01. Now in its Second Edition, this textbook prepares students to work as nursing assistants in long-term care, acute care, and home health care settings and provides a firm foundation for advancement to an LPN and ultimately an RN role. The book is written in a direct conversational writing style with an emphasis on professionalism and humanism. This edition is significantly updated and has new photographs and illustrations. A front-of-book CD-ROM includes an audio glossary. An audiobook version of the entire text in MP3 format is available as a separate purchase. A student edition DVD containing selected procedures from Lippincott's Video Series for Nursing Assistants is also available as a separate purchase.

Communication for Doctors David Woods, 2023-04-21. What Makes a Good Health Care System examines the various assumptions that underpin the different views of what makes a good health care system. The national systems in the UK, Australia, and Canada are thoroughly examined. Each country has a different view of what a good health care system is trying to achieve, and the book elucidates these by highlighting key policy documents and comments from key stakeholders. Case studies emphasise the diverse needs and expectations of individuals, examining and comparing concepts of health, needs, quality as a measure of goodness, and the various ideas on Gold Standards. This book will be valuable reading for all healthcare managers and clinicians with management responsibilities as well as policy makers and shapers and all those with a general interest in health.
