Methods of Rhetorical Criticism Bernard L. Brock, Robert Lee Scott, James W. Chesebro, 1989 *Rhetorical Criticism*

Sonja K. Foss, 2017-07-18 Over multiple editions this transformative text has taught the lively art of rhetorical criticism to thousands of students at more than 300 colleges and universities. Insights from classroom use enrich each new edition. With an unparalleled talent for distilling sophisticated rhetorical concepts and processes, Sonja Foss highlights ten methods of doing rhetorical criticism: the systematic investigation and explanation of symbolic acts and artifacts. Each chapter focuses on one method, its foundational theories, and the steps necessary to perform an analysis using that method. Foss provides instructions on how to write coherent, well-argued reports of analytical findings, which are then illustrated by sample essays. A chapter on feminist criticism features the disruption of conventional ideologies and practices. Storytelling in the digital world is a timely addition to the chapter on narrative criticism. Student essays now include analyses of the same artifact using multiple methods. A deep understanding of rhetorical criticism equips readers to become engaged and active participants in shaping the nature of the worlds in which we live.

The Rhetorical Act Karlyn Kohrs Campbell, Susan Schultz Huxman, 2003 *THE RHETORICAL ACT: THINKING, SPEAKING, AND WRITING CRITICALLY* Third Edition teaches liberal arts students how to craft and critique rhetorical messages that influence. The text is a compelling invitation to students of Communication and Language Arts to become articulate rhetors and critics of their symbolic universe. Consistent with the first two editions, the third edition takes as its starting point a traditional humanistic approach to rhetoric. The book reaffirms the ancient Aristotelian and Ciceronian relationships between art and practice that you cannot master rhetorical skills without an understanding of the theory on which such skills are based. *THE RHETORICAL ACT* Third Edition departs from traditional textbooks in several ways. It treats rhetorical action as the joint effort of rhetor and audience, emphasizing the audience's active, collaborative role. Students will encounter critical models for recognizing the opportunities and constraints of rhetorical action. This book will help your students become discerning speakers and critics who can assess situations, conceive rhetorical possibilities, examine and produce actual rhetorical messages, and compare their efforts and those of fellow students to the discourse of journalists, politicians, advertisers, and other public persuaders.

Communicating with Credibility and Confidence Gay Lumsden, Donald L. Lumsden, 2002-08 This edition is designed to increase students' confidence and credibility in communicating in a range of communication situations. The text integrates and applies the principles of effective communication common in all contexts by first developing the basic skills common to every type of oral communication and then showing how to adapt these skills to each type of interaction, culminating in effective presentation of formal speeches. Ethics, adaptation, diversity, and critical and creative thinking are common threads throughout all discussions, which include well-developed coverage of theory and research findings and skill-building exercises and activities designed for individual, dyadic, and group work.
