Oneal, Gustave Adolph Werner, 1947 *Two Koreas in Development* Byoung-Lo Philo Kim, The startling revolutions of recent years have had as great an impact on Northeast Asia as on Eastern Europe Gorbachev's cautious withdrawal of support for North Korea and his establishment of ties with South Korea have created a need for a new research agenda exploring how communism and capitalism in Asia can be successfully restructured or redirected in a new world order Focused on systemic issues this book is the first study to attempt a comprehensive analysis of social and economic development in modern Korea as a whole As a homogeneous nation artificially divided by the competing ideologies of the Cold War Korea provides a unique laboratory for comparing divergent development processes undertaken by conflicting social systems Current theories of Third World development have advocated either capitalist models of modernization or have called for the establishment of self-reliant socialist economies cut off from the world capitalist system While capitalist South Korea has consistently outperformed Communist North Korea since the mid 1970s development has not yet brought a fully evolved Western style democracy in its wake Self-reliant North Korea achieved successful growth during its first fifteen years but has since been faced with numerous structural limitations on sustained development including severe restrictions on political freedom and civil liberties In the author's view the experience of the two Koreas suggests that the solution to underdevelopment must be based on the realization that exclusionary theories need modification in the light of special historical and sociological circumstances peculiar to individual nations This volume offers a valuable interpretation of modern Korean history and constitutes an important contribution to the comparative study of capitalism and communism in practice It will be of particular interest to specialists in international relations and comparative political systems *Russian Economic Development Since the Revolution* Maurice Dobb, Henry Charles Stevens, 1929 The story of the economic development of the Soviet Union provided the first case in history of the establishment of a socialist economy and was therefore of great interest for economists and economic historians of the twentieth century At the same time it affords a unique example of the transformation of a country into an industrial nation at an unprecedented pace and under the guidance of a national economic plan This book examines these changes from the Russian Revolution of 1917 to 1927 Transition and

Development in India Anjan Chakrabarti, Stephen Cullenberg, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company *American communism, a critical analysis of its origins, development and programs* James Oneal, Gustave Adolph Werner, 1947 **Socialism and Underdevelopment** Ken Post, Philip Wright, 2010-11-26 In this book first published in 1989 Ken Post and Phil Wright provide a critical analysis of socialist construction in underdeveloped countries Pointing out that all the socialist revolutions of the twentieth century have occurred in underdeveloped peripheral capitalist countries they focus on the relationship between socialism and underdevelopment They bring together the insights of both development theory and the political economy of socialism and draw upon their direct experience of the state socialist societies as diverse as North Korea Yugoslavia Vietnam and the Soviet Union **Political Views and Ideas** R. G. Williams, 2022-07-13 This book is a study of modern politics from a Socialist and Left wing perspective As a collection of essays on political ideas it presents an analysis of the crisis of our times through examining the various crises and problems which define modern society It considers individual political aspects of the contemporary problems of Capitalist politics ranging from economic crisis to social crisis from Imperialism to the environmental crisis As such it serves to outline a solid argument for a better politics today the politics of Socialism and Democratic Socialism **Advanced Missiology** Kenneth Nehrbass, 2021-04-02 Advanced Missiology draws the connections between the theory and practice of missions Using the metaphor of a river the book shows how theories upstream such as theology education anthropology community development and history have exerted an influence on missiology and missiology in turn has gone back upstream to influence those disciplines What causes these disciplines to converge in missiology is the goal of making disciples across cultures Whereas missiologists are not always explicit about how their abstract theories actually relate to the task of making disciples across cultures each chapter in Advanced Missiology shows how numerous theories sub fields models and strategies of missiology ultimately facilitate the Great Commission The book argues that by using interdisciplinarity for this fundamental purpose missiological studies will be more credible and useful With contributions from Rebecca Burnett Leanne Dzubinski Julie Martinez *Communism's Shadow* Grigore Pop-Eleches, Joshua A. Tucker, 2017-05-09 It has long been assumed that the historical legacy of Soviet Communism would have an important effect on post communist states However prior research has focused primarily on the institutional legacy of communism Communism s Shadow instead turns the focus to the individuals who inhabit post communist countries presenting a rigorous assessment of the legacy of communism on political attitudes Post communist citizens hold political economic and social opinions that consistently differ from individuals in other countries Grigore Pop Eleches and Joshua Tucker introduce two distinct frameworks to explain these differences the first of which focuses on the effects of living in a post communist country and the second on living through communism Drawing on large scale research encompassing post communist states and other countries around the globe the authors demonstrate that living through communism has a clear consistent influence on why citizens in post communist countries are on average less

supportive of democracy and markets and more supportive of state provided social welfare The longer citizens have lived through communism especially as adults the greater their support for beliefs associated with communist ideology the one exception being opinions regarding gender equality A thorough and nuanced examination of communist legacies lasting influence on public opinion Communism's Shadow highlights the ways in which political beliefs can outlast institutional regimes *Development of Social Theory* James Pendleton Lichtenberger, 1923 **The development of capitalism in Russia** Vladimir Il'ich Lenin,
