## **Communism Vol 1 The Vanished Specter:**

Communism, the Vanished Specter Richard Pipes, 1994 Two lectures delivered by Dr Richard Pipes History Harvard U in May 1993 as part of the Norwegian Nobel Institute s Spring Lecture Series discuss Russian communism in historical and philosophical terms rather than political and economic ones concluding with a cautionary comparison of communism and contemporary Western liberalism The Reagan administration s Soviet expert 1981-82 Pipes is a world authority on Russia He describes himself as a conservative anarchist Admittedly adverse to being ordered around but respecting traditions and customs and states that his lectures reflect this attitude References Annotation copyright by Book News Inc Portland OR

**How the Soviet Union Disappeared** Wisła Suraska, 1998 Argues that the collapse of the Soviet Union was the result of an attempt by Gorbachev to concentrate political power and that the breakdown of the economy was a consequence not a cause of his reforms

East and Central European History Writing in Exile 1939-1989 Maria Zadencka, Andrejs Plakans, Andreas Lawaty, 2015-07-28 The studies in East and Central European History Writing in Exile 1939-1989 all written by experts in the history of the region give answers to the comprehensive question of how the experience of exile during the time of the Nazi and Communist totalitarianism influenced and still influences history writing and the historical consciousness both in the countries hosting exile historians as well as in the home countries which these historians left The volume comprises difficult to access information about the organization and the work of historians exiled from the Baltic States including Baltic Germans Belorussia Ukraine and Poland And it provides reflections on the intellectuals networking between their own national and the foreign traditions in the exile Contributors are Olavi Arens Mirosław Filipowicz Jörg Hackmann Volodymyr Kravchenko Oleg Łatyszonek Andreas Lawaty Iveta Leitner Artur M. *The Capitalist Transformation of State Socialism* David Lane, 2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West s decisive support of the reform process and Gorbachev s significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible

future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China **A.C.U. Bulletin of Current Documentation** ,1996 **The Cambridge History of Russia: Volume 3, The Twentieth Century** Maureen Perrie,Ronald Grigor Suny,2006-11-02 A major history of twentieth century Russia by leading scholars in the field **The Day's Work** John D. Coates,1997 Although Kipling has never lost his hold on a large and admiring public recent years have witnessed an increasing critical interest in his work This book approaches Kipling as a writer who from the outset of his career sensed a potential or actual horror at the heart of things It examines Kipling's search for meaning a research pursued on the political moral and religious planes through original and highly sophisticated explorations of history and myth It presents Kipling as a person who knew and understood his own suffering and used it in his search for strategies to deal with the temptations of pessimism that he had known and also the prevailing temptations in a political and intellectual crisis he felt obliged to address **The American Bibliography of Slavic and East European Studies for 1994** Patt Leonard,Rebecca Routh,1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs *Ideology and Private Law: Polish Experiences in the Long 20th Century* Anna Machnikowska,Michał Karol Gałędek,Rafał Mańko,2025-08-25 This book highlights the ideological aspects influencing the modern shape of private law in Central and Eastern Europe CEE examining Poland as a representative example given the shared historical trajectory of the 20th century across this region In the historico legal literature currently in international circulation there is a dearth of studies on the development of modern positive law in CEE countries This volume therefore aims to bridge this gap and deliver a more profound reflection on the long term social economic and political role of private law in this region **The Rise and Decline of the American "Empire"** Geir Lundestad,2012-03-08 The Rise and Decline of the American Empire explores the rapidly growing literature on the rise and fall of the United States The author argues that after 1945 the US has definitely been the most dominant power the world has seen and that it has successfully met the challenges from first the Soviet Union and then Japan and the European Union Now however the United States is in decline its vast military power is being challenged by asymmetrical wars its economic growth is slow and its debt is rising rapidly the political system is proving unable to meet these challenges in a satisfactory way While the US is still likely to remain the world's leading power for the foreseeable future it is being challenged by China particularly economically and also by several other regional Great Powers The book also addresses the more theoretical question of what recent superpowers have been able to achieve and what they have not achieved How could the United States be both the dominant power and at the same time suffer significant defeats And how could the Soviet Union suddenly collapse No power has ever been omnipotent It cannot control events all

around the world The Soviet Union suffered from imperial overstretch the traditional colonial empires suffered from a growing lack of legitimacy at the international national and local levels The United States has been able to maintain its alliance system but only in a much reformed way If a small power simply insists on pursuing its own very different policies there is normally little the United States and other Great Powers will do Military intervention is an option that can be used only rarely and most often with strikingly limited results
