as discovering and vindicating policy redefines policy making in a manner that is different from our traditional understanding of the term and synthesizes critical process into three judicial models symmetrical asymmetrical and hybrid The book is written in two parts Part 1 Traditional Process discusses five major traditional judicial models each reflective of either the logical method or the policy method Part 1 ends with a synthesis of the traditional models dividing them into three categories which judges who have used the book find to be most useful Part 2 Critical Process begins with a discussion of critical theory's central theme and operating elements and then transforms these features into a theory of outsider oriented judicial decision making something judges can actually use in deciding cases Critical theory is thus transformed into critical process
