Communitarian Ideology And Democracy In Singapore:

Communitarian Ideology and Democracy in Singapore Beng-Huat Chua,1997 This original balanced account presents a critical examination of the last three decades of political success in Singapore It provides an invaluable insight into the life of the regime for both students and lay readers Liberalism Disavowed Chua Beng Huat,2017-06-23 In Liberalism Disavowed Chua Beng Huat examines the rejection of Western style liberalism in Singapore and the way the People s Action Party has forged an independent non Western ideology This book explains the evolution of this communitarian ideology with focus on three areas public housing multiracialism and state capitalism each of which poses different challenges to liberal approaches With the passing of the first Prime Minister Lee Kuan Yew and the end of the Cold War the party is facing greater challenges from an educated populace that demands greater voice This has led to liberalization of the cultural sphere greater responsiveness and shifts in political rhetoric but all without disrupting the continuing hegemony of the PAP in government Crossing Borders in the Asia-Pacific James Cotton,2002 The impact across borders of transnational identities business links and ideas has been on the international political agenda for a long time These cross border phenomena have a steady and profound influence on domestic politics and international relations However they also represent a challenge because these factors can subvert accustomed views of sovereignty The essays in this book stress the diversity and influence as well as the limitations of cross border phenomena in the Asia Pacific a region home to the principles of non interference and respect for autonomy Emerging from this collection is a picture of an area dynamically affected by the penetration of ideas organised interests and financial flows Though national borders have become more porous state power and local identities still resist shape and modify cross border influences Singapore Politics Under the People's Action Party Diane K. Mauzy,Robert Stephen Milne,2002 The party has coped successfully with the needs of a multiethnic population claims for more extensive human rights the nascent development of a civil society and the problems of defending a small country in a turbulent region **Education Crossing Borders** Dara R. Fisher,2020-08-11 The chronicle of a ten year partnership between MIT and Singapore s Education Ministry that shows cross border collaboration in higher education in action In this book Dara Fisher chronicles the decade long collaboration between MIT and Singapore s Education Ministry to establish the Singapore University of Technology and Design SUTD Fisher shows how what began as an effort by MIT to export its vision and practices to Singapore became an exercise in adaptation by actors on the ground As cross border higher education partnerships become more widespread Fisher s account of one such collaboration in theory and practice is especially timely **Singapore from Temasek to the 21st Century** Karl Hack,Jean-Louis Margolin,Karine Delaye,2010 Once a centre for international trade and finance Singapore has become a global city Singapore from Temasek to the 21st Century Reinventing the Global City examines its evolution from trading port to city state showing how Singapore has repeatedly reinvented itself by creating or re asserting qualities that helped attract

capital talent and trade In the 14th century the island's prosperity rested on regulating the regional carrying trade passing through the Straits of Melaka In 1819 after a long period of decline the British East India Company revived the island's fortune by making Singapore a free port and trade sustained the city until the Japanese occupation and the postwar collapse of colonial rule After independence Singapore resumed its role as a major commercial and financial center but added facilities to make the island a regional centre for manufacturing More recently it has transformed its population into an educated and highly skilled workforce and has made the island an education hub that is a magnet for research and development in fields such as biotechnology Singapore's dramatic evolutionary struggle defies description as a sequentially unfolding narrative or merely as the story of a nation In this volume an international group of scholars examines the history of Singapore as a series of discontinuous and varied attempts by a shifting array of local and foreign actors to optimise advantages arising from the island's strategic location and overcome its lack of natural resources publisher website

Inventing Malayanness: Race, Education and Englishness in Colonial Malaya Adeline M. Koh, 2008 The Singapore Puzzle Michael Haas, 1999-01-30 This text examines why Singapore's democratic practices have declined as its prosperity has increased It explores both sides for and against Singapore's government and suggests reasons for the situation The

Promise of the Metropolis Janaki Nair, 2005 The volume provides a comprehensive perspective on the city of Bangalore that relates to three levels of analysis that of the conceived city the perceived city and spatial practice The book also charts the styles and forms of contemporary urban democracy and the city as the site of a continuous redefinition of Indian citizenship

State-society Relations in Singapore Gillian Koh, Giok Ling Ooi, 2000 This book is a collection of essays first presented by leaders from the state market and civic sectors at a national dialogue on civil society in Singapore organized by the Institute of Policy Studies in May 1998 It is set in the context of current thinking on development and governance where there has been a paradigm shift from viewing state and civil society as a zero sum adversarial relationship to viewing it as having the potential for synergies It records an initial response to this new notion across the sectors represented In effect it also reflects the current condition of state society relations some years since the People's Action Party government indicated it welcomed a greater role for civil society International Conference Arte-Polis 2, 2008 Design Issues, 2011 **Political Party**

The Journal of Commonwealth Literature, 2005 One number each year includes Annual bibliography of Commonwealth literature Citizenship, Identity, and Education in Muslim Communities Michael S. Merry, Jeffrey Ayala Milligan, 2010-12-15 This volume represents a rich multi disciplinary contribution to an expanding literature on citizenship identity and education in a variety of majority and minority Muslim communities Among its aims is to establish the theoretical possibility of a philosophically and doctrinally plausible overlapping consensus between Islam and democracy to

identify respect for difference as one critical component of that overlapping consensus and to examine a range of Islamic educational practices in various socio historical contexts Accordingly each of these essays offers important insights into the various ways one may identify with and participate in different democratic and democratizing societies to which Muslims belong *Goh Keng Swee and Southeast Asian Governance* Ian Patrick Austin,2004 This book is aimed at readers who have limited or even no knowledge of the policy work carried out by Goh Keng Swee on the development of Singapore and the decisive influence his thinking continues to have on contemporary Singapore governance The book further explores how Dr Gohs developmental thinking and practices may be utilized by policy makers in developing economies within the Southeast Asian region and further abroad His work in fact makes clear that developmental success is transferable between nations given the presence of pragmatic policy makers Ultimately the central aim of this book is to encourage further study and consideration of the words and work of one of Southeast Asias premier thinkers on development Asia-Pacific Triennial of Contemporary Art ,1999 **Singaporean Literature in English** Mohammad A. Quayum,Peter C. Wicks,2002 *People on the Move* Harald Kleinschmidt,2003-12-30 While most people in the world are descendants of migrants not everyone is conscious of the migration patterns of their ancestors The goals and motives for moving or staying are changing diverse and often difficult to specify As a result of 19th century residentialist social and political theories many scholars generally assume that migration is a pattern of behavior that deviates from the norm and requires a specific motive or reason This study details the variety of changing historical patterns of migrant behavior by examining migration patterns over 1500 years in Europe and Southeast Asia Kleinschmidt researches migrants and describes how they viewed themselves He also includes a look at lawmakers political decision makers and administrators to analyze the changes of their attitudes towards and perceptions of migration The study places migration within and out of the two regions into a long timeframe to demonstrate the ubiquitous and transience of patterns of migrant behavior It considers external attitudes and perceptions of migration within the context of the social and political theories of their own time The two distinct geographic foci of the study allow for discussion of the characteristic features of each region *Writing Asia* Li Sui Gwee,2009
