Youth Programs as Builders of Social Capital Matthew Calvert, Mary Emery, Sharon Kinsey, 2013-08-07 This volume builds understanding of practices in youth and community development that create or build social capital assets at the individual group and community levels The authors explore whether programs contribute to the development of social capital at the individual and community scales thereby fostering and enhancing positive youth development as well as community development It includes articles on defining and measuring social capital through instruments designed to document impact and also to engage program participants The authors then discuss program practices that build social capital in a wide range of youth development settings from community based service learning to 4 H community clubs Finally they focus on building social capital in particular contexts including work in rural communities with the most vulnerable youth The volume is designed to help practitioners Refine their dual focus on youth and community development Clarify constructs that help translate the public value of positive youth development to community stakeholders Provide examples of practices that link youth and youth programs more intentionally to the social relationships that knit communities together This is the 138th volume of New Directions for Youth Development the Jossey Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars practitioners and people from different

disciplines and professions **Youth Community Inquiry** Bertram C. Bruce, Ann P. Bishop, Nama R. Budhathoki, 2014 Youth Community Inquiry offers a detailed look at how young people use new media to help their communities thrive Chapters address questions about learning digital technology and community engagement through the theory of community inquiry The book concludes with an overview of a curriculum that readers may adapt for their own settings **Toward Making Good on All Youth** Nancy Erbstein, 2010 Youth who are most vulnerable to challenging community conditions more limited opportunities and poor health educational and economic trajectories derive especially strong benefits from engagement in community youth development efforts Gambone Yu et al 2004 Like many community youth development efforts the REACH Youth Program called upon grantees to address the needs of all youth While grantees were selected to reflect the diversity of communities in the region and were encouraged to recruit youth reflecting the diversity within those communities they were not asked in particular to reach out to their most vulnerable youth populations Across REACH involvement of previously un underengaged youth was limited albeit with important variation across places and times Grantees that did engage such youth over time offer important lessons about how to create the types of safe supportive and meaningful settings that promoted young people s ongoing participation and leadership Key elements of their success included 1 Intentionality and Commitment 2 Local Knowledge of Vulnerable Populations 3 Adult Allies with Key Capacities 4 Meaningful Focus 5 Resources for Intensive Outreach Relationship building and Youth Support and 6 Continuity of Key Adults This brief describes each of these elements and offers some overarching lessons learned about engaging vulnerable youth populations in community youth development Examples are drawn from two grantees that tapped the knowledge and insights of underrepresented youth over an extended period of time This paper was written with Lisceth Cruz Carrasco and David Campbell *A Glorious Revolution for Youth and Communities* George I. Whitehead III, Andrew P. Kitzrow, 2010-03-16 A Glorious Revolution integrates the ideas of service learning positive youth development and model communities into a book with a comprehensive message about making communities more democratic Specifically the book argues that through service learning an educator can teach higher order thinking such as information literacy problem solving and critical and creative thinking Educators learn how to teach each of these skills The book also argues that service learning fosters skills for career success The book also introduces a new way to think about what constitutes a model community The authors use current and classical research books and web sites on the topics presented in the book and employ examples of how different communities currently engage their young people The end of each chapter includes exercises designed to foster critical thinking *Choice for Communities, Alternatives for Youth* ,1983 *Community Service and Social Responsibility in Youth* James Youniss, Miranda Yates, 1997-08-18 An analysis of the beneficial effects of community service on the political and moral identity of adolescents It uses a case study from a predominantly black urban high school in Washington D C building on the work of Erik Erikson on the social and historical nature of identity development **Healthy Communities, Healthy Youth**
