Communities Left Behind: Alternatives for Development Larry R. Whiting, 1974 Coping With Rapid Growth In Rural Communities Bruce A. Weber, 2019-03-04 This book integrates the most current research findings on the economic demographic fiscal and social consequences of rapid growth in rural communities and offers strategies that can be used to mitigate the often disruptive impact of that growth While working extensively with government officials and citizens in rural communities Drs Weber and Howell became aware of the need for a compilation and synthesis of the research on rural growth they subsequently invited scholars working in selected topic areas to contribute to that effort The resulting papers were refined during a meeting sponsored by the Western Rural Development Center edited and brought together in this volume Incorporating 1980 census data the book outlines the spectrum of changes associated with rapid growth in rural areas presents specific options for managing rapid growth and suggests a model that communities can use for impact assessment and for monitoring the effectiveness of various management strategies **Bibliography of Agriculture with Subject Index** ,1975-05 **Bibliography of Agriculture** ,1975 **Revitalization of Small Communities : Transportation Options, Volume 1** Vary Coates, 1975 This study of rural small towns in the final quarter of the twentieth century is an example of futures research a technology assessment and a policy analysis As futures research it tries to sum up long range trends affecting rural small towns and their potential functions in a period when the nation is making a sometimes difficult transition into post industrial society As a technology assessment the study is concerned with the role which transportation has played and will play in the vitality growth or decline of rural communities and the quality of life experienced by their residents Technology assessment is a subset of the larger field of policy research and analysis The study is intended to inform and support the process of formulation of transportation policy as it relates to small towns and rural areas **Revitalization of Small Communities** Vary Coates, Ernest Weiss, 1975 Social Change in Rural Societies Everett M. Rogers, 1988 **The Changing American Countryside** Emery N. Castle, 1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers *The Changing American Countryside* a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban

America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life *Social Impact Assessment and Management* F.
