Meisel, 1975-09-01 From the time it was first promulgated in the sixth century The Rule of St Benedict has been one of the most influential enduring documents of Western civilization Composed for the guidance of his own monks at Monte Cassino St Benedict's Rule has become the basis for the rules of practically every Christian monastic community in the West In it are the guidelines for living the spiritual life through work prayer study obedience community and moderate asceticism This acclaimed edition of The Rule of St Benedict is a highly accessible modern translation that conveys the spirit and logic of the original text It contains an invaluable in depth Introduction that explores the development and spread of Christian monasticism a biographical sketch of St Benedict a discussion of the structure and implementation of his Rule its value and impact on religious orders from the Middle Ages down through history its tremendous influence on Western culture and civilization and finally various texts of the Rule Friendship & Community Brian Patrick McGuire, 1988 I assume that historical sources can convey human feeling even though it is fruitless to psychologize individual friends or to reach complete explanations about their motives I simply accept that because medieval Christians believed in friendship and felt the need for it some of them both practiced and lived out friendships from the new Introduction Human beings have

always formed personal friendships Some cultures have left behind the evidence of philosophical discussion some have provided only private or semipublic letters By comparing these one discerns the effect exercised by the society in which the writers lived its opportunities and its restrictions The cloistered monks of medieval Europe who have bequeathed a rich literary legacy on the subject have always had to take into account the overwhelming fact of community Brian Patrick McGuire finds that in seeking friends and friendship medieval men and women sought self knowledge the enjoyment of life the commitment of community and the experience of God First published in 1988 *Friendship and Community* has been widely debated inspiring the current interest among medievalists in the subject of friendship It has also informed other fields within medieval history including monasticism spirituality psychology and the relationship between self and community In a new introduction to the Cornell edition McGuire surveys the critical reaction to the original edition and subsequent research on the subject of medieval friendship

Church: a Reflection of the Triune God Patrick Akpenevwe Otor, 2011-12-29 *InChurch A Reflection of*

the Triune God Father Patrick Akpovevwe Otor MSP offers a new way of looking at the Church. He sees the nature and mission of the Church as an offshoot of the communion and love that binds together the persons of the Trinity. He shows how the three-tiered leadership structure of the Church mirrors the persons of the Trinity. Father Otor took time to explore and expand the term mission as it is understood in today's Church to include evangelization, inculturation, struggle for justice and liberation, ecumenism, inter-religious dialogue, protecting the earth, *missio Dei*, and many more. The book illustrates the person and roles of the pastor or pastoral leader both within the church and in the world. It will be a valuable resource for both teachers and students of theology, pastors, priests, pastoral leaders, missionaries, and ordinary Christians who are interested in learning more about their church and faith. *Church: A Reflection of the Triune God* will inform, inspire, and challenge anyone and everyone who reads it.
