Community College In The 21st Century A Systems Approach:

The Community College in the Twenty-first Century Michael Scott Cain, 1999-07-15 The Community College in the Twenty First Century demonstrates that while it is the most important institution in higher education the community college is losing its way The recent success of two year colleges has hidden the varied reasons for this loss of direction and energy Michael Scott Cain uses a systems approach rather than the typical linear perspective to expose the weaknesses present in community colleges He then discusses the strengths of community colleges and suggests methods of utilizing those strengths to fortify these institutions as they enter the next century He provides a specific and distinct plan covering all the major aspects of a community college that will lead not only its survival but to its growth and potential achievement as an essential institution of education

The Contextualisation of 21st Century Skills Esther Care, Mauro Giacomazzi, John Kabutha Mugo, 2024-02-19 This open access book is written for educators and policymakers who seek to empower young people with competencies necessary for fulfilling lives in the 21st century It reports how a large group of educators from government and civil society organisations together with researchers from universities used their curriculum assessment and social economy expertise to develop contextualised definitions of life skills and values and associated assessment tools The book also reports on levels of these competencies of over 45 000 adolescents from a household based assessment conducted in Kenya Tanzania and Uganda The results describe how these adolescents vary in proficiency by region age and other factors providing a resource for national education ministries to factor into policy decisions Given the technical requirements of measuring individuals social emotional and related competencies how is it possible to capture an adolescent s life skills across varied contexts The book provides readers with a pragmatic yet technically robust process for undertaking a large scale assessment program designed to inform policy

Community College Missions in the 21st Century Barbara K.

Townsend, Kevin James Dougherty, 2006 This volume reexamines the community college's functional missions in the context of both long established and emerging societal missions Written for college leaders scholars and policymakers *Community College Missions in the 21st Century* addresses the most pressing questions concerning community colleges including Is the societal mission of a community college to provide postsecondary education to students who might not otherwise obtain it or to be responsive to the needs of local communities including business and industry Should its dominant functional mission be to provide transfer education so that students can eventually attain a baccalaureate or should the institution concentrate on workforce training and continuing education Given demographic shifts and pressures to be accountable and demonstrate student learning are the traditional community college missions still relevant What makes discussions of community college missions so intriguing is that the answer to each of these questions is potentially yes depending on one's perspective on the role of community colleges in America's education system This volume examines these questions and others through various perspectives using specific case studies and examining broader more national perspectives This is the 136th volume of *New Directions for Community Colleges* a quarterly journal published by Jossey Bass Click here to view the entire list of titles from *New Directions for Community Colleges* [Systems Approach to Learning and Education Into the 21st Century](#) Yaman Barlas, Vedat G.
